There are several types of boxes available from a variety of suppliers, including RSPB, NHBS, Amazon, BTO, etc. For example, the Schwegler 26mm and 32mm nest boxes (woodcrete) for birds. The submitted details should pinpoint the location of the boxes in the perimeter trees, number, aspect (N, S, E, W, NE, NW, SE or SW) and type of boxes and when they will be installed. Ideally, the bat boxes should be erected at different aspects, so that the bats can move between boxes if the temperature is too hot or cold. Advice on the siting of the bat and bird boxes is available online at the Bat Conservation Trust or RSPB websites.
