INVESTMENT AND INTERVENTION FRAMEWORK AND TOOLKIT

REPORT OF CLLR PETER FOX AND CLLR HUW THOMAS

AGENDA ITEM: 11

Reason for this Report

1. To present to Regional Cabinet a proposal to establish the Investment and Intervention Framework and Toolkit (IIF) providing an objective and robust evaluation procedure to assess and prioritise deliverable investment projects funded from the Wider Investment Fund. The report sets out that the Investment and Intervention Framework and Toolkit is part of the overall Assurance Framework and is the means through which the principles of the Assurance Framework can be practically applied.
2. To outline proposals for setting-up a new Investment Panel as part of the Investment and Intervention Framework and Toolkit and detail arrangements for the transition of the existing Programme Board.
3. To provide details of how the Investment and Intervention Framework and Toolkit is to be marketed and launched.

Background

4. The Cardiff Capital Region City Deal is a £1.229bn investment over twenty years that is expected to create 25,000 new jobs, leverage an additional £4bn of investment in the region and provide a 5% Gross Value Added (GVA) uplift.
5. There are two components to the Deal – the £734m investment in the South Wales Metro and the £495m Wider Investment Fund (WIF). The delivery of the Metro programme is being overseen by Transport for Wales and the deployment of the WIF is the responsibility of Regional Cabinet. When comparing the City Deal core aims and objectives with other comparable city deals in the UK, it is reasonable to assume that the targets are for the entirety of the City Deal funding and not only the WIF. Discussions are ongoing with UK Government to clarify this position.

6. Governance arrangements for the City Deal are set out in the Joint Working Agreement (JWA) which amongst other matters contained an Assurance Framework. The Assurance Framework was approved by UK Government, Welsh Government and by each of the ten local authorities comprising the CCRC when approving the JWA. The Assurance Framework provides an overarching process for funding decisions to be made by Regional Cabinet.
7. The Assurance Framework requires investment decisions to be guided by the JWA Business Plan and recommends that a 'Regional Impact Assessment Toolkit' (Investment and Intervention Framework and Toolkit) should be developed and supported by a 'Prospectus for Growth and Prosperity' (CCR Industrial and Economic Plan – endorsed by Regional Cabinet in February 2019). This approach was required due to timescales and the absence of a detailed pipeline of investment projects at the inception of the City Deal, and serve to provide an objective and robust evaluation procedure to assess and prioritise deliverable investment projects.
8. Building on the JWA and JWA Business Plan, the Investment and Intervention Framework and Toolkit (IIF) will further define the core aims and objectives of the WIF, establish the investment criteria and financial criteria and provide a tool for Regional Cabinet to formally evaluate and prioritise investment projects.

Investment and Intervention Framework and Toolkit

9. The 'Regional Impact Assessment Toolkit' as outlined in the Assurance Framework will be referenced and known as the Investment & Intervention Framework and Toolkit (IIF) – a strategic but practical 'how to' guide for the deployment of the WIF. The IIF will illustrate that the region is open for business and further, will clearly state how the region wishes to conduct its business.
10. The IIF is designed to evolve throughout the lifespan of the City Deal as local priorities change, the public funding landscape evolves, and lessons are learnt from early investments. As such the IIF will be kept under annual review, through the annual business planning process, to ensure it continues to meet the specified needs of Regional Cabinet. The IIF is based on an evergreen principle – an investment focus with return on investment high on the agenda. The return on investment will take one or more of three primary forms:
 - economic growth – delivering against the City Deal core aims and objectives of job creation, investment leverage and GVA uplift;
 - economic inclusion – creating opportunity for all and to distribute the dividends of increased prosperity fairly to encourage and enable participation in the economic life of the region as employers, entrepreneurs, consumers and citizens; and
 - financial return on investment – repayable investments – generating an evergreen investment fund for Regional Cabinet that is focussed on 'pull' investment and regenerative growth, enabling Regional Cabinet to live off the interest and not the capital.

11. The purpose of the IIF is to ensure the delivery of the core objectives of the City Deal (job creation, investment leverage, and GVA uplift); driving economic growth and economic inclusion across the region, enhancing productivity and prosperity by reducing the restrictions to economic growth, addressing economic disparities across the region, and delivering the priorities as set out in the CCR Industrial and Economic Plan.
12. Objective criteria, as set out in the Sift Questionnaire, will be used to initially assess and score a wide range of projects in an independent way providing Regional Cabinet with the best means of receiving clear and impartial advice on which projects to take forward for detailed consideration. Projects taken forward will then be evaluated following an appraisal process consistent with HM Treasury's Green Book and Business Case Appraisal Process, applied in a proportionate manner. The advice for Regional Cabinet will be via the CCR Director, the Economic Growth Partnership and Programme Board, all of which will be further advised by an Investment Panel – a mix of public and private sector representatives. Regional Cabinet will retain decision making responsibilities, for approving projects, as set out in the Assurance Framework and JWA. The key operating principles, key features and process for the IIF are outlined in appendices 2 and 4.
13. The approach of the IIF exemplifies the appraisal outlined in the Assurance Framework and is consistent with the HM Treasury's Green Book and Five Case Model. Advice has been sought from advisors on how we implement a proportional approach to the investment appraisal process to ensure that the principles of the Five Case Model are adhered to. We will assess proposals on a case-by-case basis taking into account scale, value and complexity – see Financial Implications. The judgement of the proportionality of the approach to the development of the Full Business Case will be taken when appraising the Strategic Outline Case.
14. The development of the IIF proposals have included discussions with both the Welsh and UK Governments, and both are supportive of the progressive principles that underpin the IIF. Both governments are also comfortable that the approach outlined is consistent with the governance arrangements set out in the JWA. The early and ongoing engagement with both Welsh and UK Governments has been imperative to manage and mitigate the risks of establishing and operationalising key aspects of the Assurance Framework.

Investment priority areas and indicative allocations

15. In order to consider the range of projects across the investment portfolio, the IIF will have three interconnected investment priorities to allow fair and transparent comparison of projects to be undertaken, ensuring they are aligned to CCR priorities as outlined in the Industrial and Economic Plan. These are:
 - infrastructure priorities – public sector led and public-private infrastructure projects that create conditions for private sector success and civic benefits such as transport, digital infrastructure, skills, and sites;

- innovation priorities – propositions that focus on innovation that increases productivity from the foundational economy through to propositions that demonstrate unique Intellectual Property, market leadership and competitive strength; and,
 - challenge priorities – seeking to attract the best solutions for specific challenges faced by the region, and opportunities within the UK Industrial Strategy.
16. The evergreen principle applies to the fund as a whole across the three investment priority areas. It is acknowledged that not all projects will directly meet this criteria (that is, provide a financial return on investment), but such projects may be taken forward if they provide important returns such as economic growth and economic inclusion. With the Innovation priorities it is clear to see how the evergreen principle will apply, as these investments will be made via repayable instruments. There are also a number of potential alternative mechanisms available for deployment for innovative return on investments on infrastructure projects, for example, Investment Recovery Charge, Joint Venture Investments, and other fiscal income streams. The Challenge priorities return on investment will be through a mixture of repayable and risk investment returns by fostering a wider ecosystem development benefit.
17. The WIF has a total allocation of £495m, however, Regional Cabinet have resolved that up to 3% of the fund is to be ‘top-sliced’ to provide financial support to a range of Regional Bodies and to progress the detailed work on individual projects (Programme Development and Support). The balance (circa £480m) will need to be allocated across the three investment priorities. Following an initial assessment of what contributions the various investment priorities will make to the core aims and objectives of the City Deal the following indicative allocations are proposed:
- infrastructure priorities - £200m
 - innovation priorities - £200m
 - challenge priorities - £80m
18. These initial allocations are based on (i) the JWA Business Plan and (ii) a set of base assumptions around the contribution and deliverability that each investment priority of innovation, infrastructure and challenge will make to the City Deals core aims and objectives (jobs, leverage and GVA uplift) against the wider aims of the economic inclusion and financial return on investment. The current balance is considered appropriate at this stage. These allocations will need to be kept under review in light of actual projects approved by Regional Cabinet and the achievability of the core aims and objectives. Therefore it is fully envisaged that allocations from one priority area to another will change over time.
19. Appropriate investor readiness support will be signposted and provided to project proposers on a case-by-case basis to ensure that the investment propositions being considered by Regional Cabinet are mature and robust and ready for investment.

Sift Questionnaire

20. The Sift Questionnaire (attached as appendix 1) will be used to assess the applicant's outline project proposal to determine its 'in principle' suitability for funding support from a strategic fit perspective. The questionnaire will identify the suitability of the applicant and project proposal against the core aims and objectives, alignment with the Industrial and Economic Plan, and deliverability of the proposal. Initial assessment work will be led by the Chief Officer (Investment) with support from the Office of the City Deal, under delegated authority provided to the Director in consultation with the Investment Panel.
21. The Strategic Outline Case in the Five Case Model will result from an assessment of the Sift Questionnaire and the applicant's outline project proposal.

Overarching Funding Agreement

22. The Overarching Funding Agreement (attached as appendix 2) sets out in detail how the Investment and Intervention Fund and Toolkit will operate in practice, the delegations and processes required for it to be operationalised under the oversight of Regional Cabinet, how it refers back to the Assurance Framework and the JWA, and the duties of the Accountable Body.

Portfolio Leads for Regional Cabinet

23. The Assurance Framework provided that, in order to focus activity and promote delivery, a portfolio arrangement would be introduced. At the time the Assurance Framework was prepared a number of portfolios were identified, some of which were shared. Given the work done on preparing the IIF it seems opportune to review and revise the Cabinet Portfolio areas. The proposed Cabinet Portfolios have been designed to align with the priorities identified and the implementation of the IIF. The proposed portfolios are set out in full at Appendix 5.
24. There are 9 new portfolio areas identified with the Chair having an open portfolio, reflecting the requirement for overall oversight, policy and strategy development and the need for liaison with UK and Wales Governments. It is suggested that one Council Leader is appointed to each portfolio (though two or more members could be appointed to a portfolio if they have a particular interest in that area) and that the portfolio appointments are reviewed at the first meeting of Regional Cabinet in each Municipal year, or at any other meeting of Regional Cabinet, upon request of a Cabinet Member. If the recommendations in this report are approved then a further report will be brought to the next meeting of Regional Cabinet to seek nominations for and agree the allocation of portfolios.
25. Under the terms of the JWA no individual member has decision making authority, decisions being made at meetings of Regional Cabinet or under delegation to an officer. It is not proposed to alter this, in the change to portfolio arrangements. The revision of the portfolio arrangements is not seen as a substantive amendment to the JWA and is within the remit of Regional Cabinet to agree, if members find the proposals acceptable

Investment Panel

26. As part of the IIF, Regional Cabinet are asked to establish an advisory group, referred to as the Investment Panel to add further robustness to the advice received by the Director and Regional Cabinet when considering project applications. The Investment Panel will be advisory and will give independence, technical support and expertise to the process of project appraisal, including consideration of recommendations being made to the Regional Economic Growth Partnership and Programme Board. It will also have an active role in reviewing live projects ensuring deliverability against agreed criteria.
27. The Investment Panel will be made up of ten members; five from the Regional Economic Growth Partnership, and five representatives from public bodies with the relevant commercial and financial expertise. It is proposed that the Chief Executives Group/Programme Board will recommend the five public body representatives and the Regional Economic Growth Partnership will recommend its five representatives to the Director, who will approve their nominations in consultation with the Chair and Vice-Chairs of Regional Cabinet.
28. In addition to the core ten members of the Investment Panel, the Investment Panel will have the ability to co-opt members to the panel with specialist expertise to assist with their project appraisal as and when required – for example specialist expertise in transport for transport-related schemes.
29. The Investment Panel role is advisory to the Economic Growth Partnership, Programme Board and the Regional Director. The detailed meeting procedure rules and terms of reference for the Investment Panel are being developed but this Panel will not have any decision making powers and is not intended to be a sub-committee of Regional Cabinet. Due to its role in providing investment appraisal advice on specific project applications, where financially-sensitive information relating to third parties will be considered, it is likely that its meetings will not be open public meetings. The outcomes of its discussions will, however, be captured in the Quarterly Performance Reports of the Director to Regional Cabinet and in project specific reports to Regional Cabinet, to ensure transparency. The meeting rules will contain provision as regards conflict and declarations of interests.

Programme Board

30. The role of the local authority Chief Executives will be formalised by becoming the core component of the Programme Board. This will provide additional assurance to the project appraisal process. The Terms of Reference for the Programme Board will be reviewed and updated as necessary upon establishment of the Investment Framework.

Procurement of External Advisors

31. The project appraisal process will have a robust due diligence aspect, and external advisors will need to be procured via a framework agreement to call upon, as and when required, to provide in-depth specialist due diligence advice covering legal, financial, commercial and technical advice.
32. Due diligence will principally be undertaken at two stages of the project appraisal process. Initial due diligence will be undertaken as required to ensure that the Strategic Outline Case adequately assesses the Sift

Questionnaire and applicant's outline project proposal. Delegated authority to the City Deal Director is requested as part of this report to procure initial due diligence advice and where the estimated value of the appointments for any one project proposal does not exceed £100,000. Full due diligence costs will be a consideration of Regional Cabinet in approving the Strategic Outline Case.

Launch and Marketing of the Investment and Intervention Framework

33. Subject to Regional Cabinet approval, it is proposed that the Investment and Intervention Framework and Toolkit is launched during Wales Festival of Innovation (15-29 June 2019) in a location within the Cardiff Capital Region. An Investment Fund manual will be developed to support stakeholder awareness, communication and engagement with the IIF.

Delegations

34. In order to complete the IIF, the report recommends that delegated authority is granted to the City Deal Director to finalise the Overarching Funding Agreement Sift Questionnaire and other associated documentation, including completion of the following:

- Investment Manual – working draft included in appendix 3;
- KPI assessment model – to ensure that across the portfolio of projects funded from the IIF that appropriate and proportional contribution is made to the overall aims and objectives of the City Deal; and
- Sift Questionnaire – weightings and scores for each question,

subject to such delegation being exercised:

- (i) in consultation with the Chair of Regional Cabinet and the S151 Officer for Regional Cabinet; and
- (ii) such that the substance of the Overarching Funding Agreement and IIF approach shall not differ in any material respect to that outlined in this report.

35. To facilitate the IIF process this report seeks that delegated authority is granted to the Director to:-

- (i) procure and appoint a panel of advisers to provide in-depth specialist due diligence advice covering legal, financial, commercial and technical advice that may be required in order to assess a project that is being considered for CCRCD funding;
- (ii) engage any individual, person, firm, partnership or company (and determine the terms of the contract), where the estimated value of the appointments for any one project proposal does not exceed £100,000 and costs can be met from within approved budgets (and note that the delegation set out in Schedule 1 of the Joint working Agreement (Delegations Policy) paragraph 27 is so amended;

- (iii) to appoint, from time to time, the members of the Investment Panel, in accordance with the nomination process set out in paragraph 27 of this report; and
- (iv) carry out such tasks as are required and allocated to the Director under the Overarching Funding Agreement,

subject to such delegations being exercised: (i) in consultation with the Chair of Regional Cabinet and the S151 Officer for Regional Cabinet; and (ii) any resultant costs incurred being within approved budgets.

Reasons for Recommendations

- 36. To seek Regional Cabinet's approval to establish the Investment and Intervention Framework and Toolkit as set-out in the WIF Assurance Framework.
- 37. To create the new Investment Panel as detailed in the Overarching Funding Agreement to support the implementation of the IIF and to transition the current Chief Executive's group to the Programme Board in order for Chief Executives to have a formal role in the process.
- 38. To seek approval of the IIF marketing and its launch.

Declarations of Interest

- 39. The development and implementation of the IIF offers a timely opportunity to review and refresh process and practice around Declarations of Interest. In respect of Regional Cabinet, individual members are subject to their authority's respective Code of Conduct for members and declarations of interests are made via the policies and procedures in place with individual Councils. Advice on Declarations of Interest is to be sought from the individual Council's Monitoring Officer. At the start of every Regional Cabinet Meeting, provision is made to declare any interest held in relation to matters that are on the agenda for that meeting and to not take part (leave the meeting) where interests are 'prejudicial'. These same procedures also apply to the Regional Transport Authority as a sub-group of the Regional Cabinet.
- 40. For all partnerships that sit within the City Deal governance structure, particularly the Economic Growth Partnership, Declarations of Interest is one of the first items on every agenda with a paragraph to denote the responsibility placed upon the individual to make the necessary disclosures and what this involves – similar to the above process for Regional Cabinet.
- 41. The City Deal Director will undertake a review of current processes in conjunction with advice from the Accountable Body Monitoring Officer and will recommend enhancements and reinforcements as and where they are deemed necessary. Beyond proposing that disclosures are up-to-date and published in accordance with individual Council's own guidelines, this will also include re-issuing to members and partnerships alike, guidance from the Public Services Ombudsman for Wales and the enhanced Nolan Principles.

Scrutiny

42. It will be a matter for joint scrutiny to determine if it wishes to carry out scrutiny of any proposed projects as it proceeds through the IIF. However, the City Deal Director will work with the Joint Scrutiny Committee to inform and shape its forward work programme.

Wellbeing Future Generations Implications

43. In developing the IIF and in considering its endorsement regard should be had, amongst other matters, to:

(a) the Welsh Language (Wales) Measure 2011 and the Welsh Language Standards;

(b) public sector duties under the Equalities Act 2010 (including specific Welsh public sector duties). Pursuant to these legal duties Councils must in making decisions have due regard to the need to (1) eliminate unlawful discrimination, (2) advance equality of opportunity and (3) foster good relations on the basis of protected characteristics. Protected characteristics are: a. age; b. gender reassignment; c. sex; d. race – including ethnic or national origin, colour or nationality; e. disability; f. pregnancy and maternity; g. marriage and civil partnership; h. sexual orientation; i. religion or belief – including lack of belief, and

(c) the Well-being of Future Generations (Wales) Act 2015. The Well-being of Future Generations (Wales) Act 2015 ('the Act') is about improving the social, economic, environmental and cultural well-being of Wales. The Act places a 'well-being duty' on public bodies aimed at achieving 7 national well-being goals for Wales - a Wales that is prosperous, resilient, healthier, more equal, has cohesive communities, a vibrant culture and thriving Welsh language and is globally responsible. In discharging their respective duties under the Act, each public body listed in the Act (which includes the Councils comprising the CCRC) must set and published well-being objectives. These objectives will show how each public body will work to achieve the vision for Wales set out in the national well-being goals. When exercising its functions, the Regional Cabinet should consider how the proposed decision will contribute towards meeting the well-being objectives and in so doing achieve the national well-being goals.

The well-being duty also requires the Councils to act in accordance with a 'sustainable development principle'. This principle requires the Councils to act in a way which seeks to ensure that the needs of the present are met without compromising the ability of future generations to meet their own needs. Put simply, this means that Regional Cabinet must take account of the impact of their decisions on people living their lives in Wales in the future. In doing so, Regional Cabinet must:

- look to the long term;
- focus on prevention by understanding the root causes of problems;
- deliver an integrated approach to achieving the 7 well-being goals;

- work in collaboration with others to find shared sustainable solutions;
- involve people from all sections of the community in the decisions which affect them.

Regional Cabinet must be satisfied that the proposed decision accords with the principles above. To assist Regional Cabinet to consider the duties under the Act in respect of the decision sought, an assessment has been undertaken, which is attached at Appendix 6.

Legal Implications

44. External legal advice (from Pinsent Masons) has been sought on developing the Investment and Intervention Framework ('IIF') and toolkit, drafting of the Overarching Funding agreement, and on the holding of the fund (either as fund or series of funds).

Overarching Funding Agreement

- A. The report seeks approval to the conclusion of the Overarching Funding Agreement (a comprehensive draft of which is attached at appendix 2 to this report) and to delegate authority to the City Deal Director to finalise the Overarching Funding Agreement and associated documentation.
- B. Put simply, the Overarching Funding Agreement confirms the procedure for the initial evaluation of applications for City Deal funding (SIFT); the process for implementing the Investment Framework (the framework for assessing and evaluating applications); the interplay between the Joint Committee and relevant parties; and confirmation of the decision making process.
- C. It is not practical in this legal advice to consider the agreement clause by clause and it is noted that the body of the report outlines the IIF process. The following points are, however, noted:-
- (I) As members will be aware, the Councils established the Cardiff Capital Region City Deal ("City Deal") and entered into the Joint Working Agreement on 1 March 2017 ("JWA") to formalise their respective roles and responsibilities in relation to the City Deal. The JWA, amongst other matters, established the Joint Committee ('Regional Cabinet') that is responsible for overseeing and co-ordinating the discharge of the Councils' obligations in relation to the City Deal and sets out the decision making powers of the Joint Committee. It is important to note that the Overarching Funding Agreement is not intended to replace the JWA. The Overarching Funding Agreement specifically provides that it shall not serve to amend or in any way take priority over the terms of the JWA.
 - (II) Decision making in respect of approving applications (including the decision to progress applications through various stages in the process) remains with Joint Committee.

- (III) The fund will continue to be held by the Accountable Body, targeted at the three investment priorities (Innovation, infrastructure and Challenge) referred to in the report.
- (IV) The Overarching Funding Agreement importantly sets out the investment criteria, which will be used to initially assess applications at the SIFT stage.
- (V) Applications taken forward for consideration will be the subject of detailed due diligence undertaken in accordance with the Assurance Framework and the Investment Framework, which framework is predicated on a 'Proportionate Business Case Development Process, which is in turn a due diligence process based on the HM Treasury Green Book (using the Five Case Model) as amended, on a proportionate basis to reflect the scale, nature and complexity of the relevant application.

It is appreciated that the Overarching Funding Agreement, which lists each Council as a party, may be seen as a complex way of dealing with matters and may beg the following questions:-

Whether the decision on to conclude the Overarching Funding Agreement needs to be referred back to each Council, given that each Council is named and will be requested to seal the document? Having considered matters with external legal advisers, the advice is that this matter falls within the remit of the Joint Committee and does not need to be reported back to each Council for decision, given the purpose of the agreement (see 2 (B) above) and the caveats contained in the agreement (see 2 (C) (i) above).

Whether matters could have been dealt with in a different manner, through the Annual Business Plan process? Clause 8 of the JWA providing that

8.2 The Regional Programme Director shall procure the preparation of an Annual Business Plan for the development of the Cardiff Capital Region Wider Investment Fund(s), in accordance with Clause 7 (Business Plans and Progress Monitoring), to determine, amongst other matters, the following:-

8.2.1 the legal structure of the Cardiff Capital Region Wider Investment Fund and whether it shall comprise of a single or series of funds;

8.2.2 the investment criteria and investment policy;

8.2.3 the governance structure for the investment board;

8.2.4 the approach to performance reporting and the interplay with the Gateway Review; and

8.2.5 the procedure for the appointment of a fund manager

In this case the advice received was that it was thought prudent to set matters out in an agreement, given the detail of the arrangements proposed and that the arrangements are anticipated to apply year on year and require longevity. That said, given the decision to conclude the Overarching Funding Agreement is a matter for the joint committee, it is always open to the Joint committee to determine at any time to revoke or amend the Overarching Funding Agreement.

Delegations

45. The recommendations seek that delegated authority be granted to the City Deal Director in respect of a number of specified matters. The JWA provides that the Joint Committee may delegate any of the powers which are conferred on them under the JWA to such person (which would include officers), to such extent, in relation to such matters and on such terms and conditions as they think fit.

Financial Implications

46. The attached report seeks approval of the Investment & Intervention Framework (IIF) and related documentation, to support the objective and robust evaluation of proposals seeking funding from the Cardiff Capital Region City Deal – Wider Investment Fund. The report outlines that the IIF seeks to address the current gaps in the Assurance Framework, and that consultation has taken place with both UK and Welsh Governments, regarding the proposed framework. This matter is important, as compliance with the Assurance Framework is a key condition of HM Treasury funding, which underpins the Wider Investment Fund.
47. HM Treasury funding is paid to the Accountable Body on behalf of the ten Cardiff Capital Region City Deal (CCRCD) constituent councils. The funding must be used solely to support the objectives of CCRCD through the implementation of projects and schemes agreed by the Regional Cabinet and in accordance with arrangements set out in its Joint Working Agreement, Wider Investment Fund, Assurance Framework, and the JWA Business Plan.
48. In line with the requirements of the Assurance Framework, the IIF will require proposals that have passed the ‘Sift Stage’ to be subject to a ‘Proportionate Business Case Development Process’ in line with the HM Treasury Green Book (5 Case Model). Clauses 3.5 (Appraisal Framework) and 3.7 (Business Case Development) of the Assurance Framework outlines the concept of ‘proportionality’.
49. The early stages of the IIF process will provide an initial view around how proportionality is to be addressed for each proposal on a ‘case-by-case’ basis, assessing matters such as project value, complexity, timescales etc. However, in all cases, the approach adopted will need be predicated on the principles (and robustness) delivered through the 5 Case Model, with proposals undergoing the necessary consultation with stakeholders at key intervals. This latter point is important to comply with the principles of good

governance and minimise the risk of non-compliance with HM Treasury funding terms and conditions.

50. At its meeting on 8th February 2019, Regional Cabinet approved 'The Wider Investment Fund – Annual Business Plan 2019/20' (ABP). The ABP includes a range of revenue and capital budgets in respect of the Wider Investment Fund (WIF) to support the project delivery pipeline. Budgets are set out for the current year and also cover the medium term, in line with the approved 5 year Joint Working Agreement Business Plan. In summary, resources have been approved to support:

WIF Top-Slice - through an annual sum of £742,500, which is allocated between known initiatives (forward commitments), with the balance (uncommitted sum) being available to fund new initiatives. The IIF outlines that the Sift Stage and the production of the Strategic Outline Case for a project proposal may require initial due diligence costs of up to £100,000 being incurred to support the City Deal Director's recommendation to Regional Cabinet in respect of new proposals. These sums will be met from the WIF Top-slice Budget. New proposals will be met from the balance of funding available against the uncommitted sum and once approved, will represent a forward commitment against this budget.

In-principle Project – proposals which have secured Regional Cabinet approval to proceed, subject to the preparation and approval of their business cases, are categorised as In-principle Projects. There are revenue resources amounting to £856,000 available in 2019/20 to support In-principle Projects. This budget available to meet cost of developing business cases, as well as carrying out the required level of due diligence as the proposal is developed and moves through the IIF process.

Approved Project Budget – projects that have satisfactorily met all the requirements of the IIF process and which are subsequently approved by Regional Cabinet i.e. 'Approved Project', will be allocated an 'Approved Project Budget', as set out in the accompanying Funding Letter. Approved Project Budgets will be met from resources allocated over the medium term as most projects are likely to straddle a number of financial years. For example, there is £26.1m of capital resources available in 2019/20 to fund approved projects. In addition, resources amounting circa £120.0m have been included in the medium-term budget covering the following three financial years to 2022/23.

51. The reports seeks approval to identify or establish a framework agreement from which external advisors can be procured and that will support the IIF process. The cost of running the procurements will be met from within existing City Deal Office and Accountable Body resources. In addition, the City Deal Office has an approved budget in place to support the launch and marketing of the IIF.
52. Further financial advice will be provided throughout the year as proposals are brought forward for assessment under the IIF. In addition, the quarterly performance reports will provide Regional Cabinet with regular updates in respect of the sift stage, progress against proposals moving through the

business case development process as well as the position against approved 2019/20 WIF budgets.

RECOMMENDATIONS

It is recommended that the Cardiff Capital Region Regional Cabinet:

1. approve the establishment of the Investment and Intervention Framework ('IIF') and the priority investment strands of Infrastructure, Innovation, and Challenge on the basis set out in this report;
2. endorse the initial investment apportionment across the three investment priorities as set out in paragraph 17 of this report which will be reviewed annually as part of the annual business plan process;
3. approve the conclusion of the Overarching Funding Agreement (a draft of which is attached at appendix 2 to this report) and delegate authority to the City Deal Director to finalise the Overarching Funding Agreement and associated documentation, including completion of the following:
 - Investment Manual – in development – to follow;
 - KPI assessment model – to ensure that across the portfolio of projects funded from the IIF that appropriate and proportional contribution is made to the overall aims and objectives of the City Deal;
 - Sift Questionnaire – weightings and scores for each question, and

subject to such delegation being exercised: (i) in consultation with the Chair of Regional Cabinet and the S151 Officer for Regional Cabinet; and (ii) such that the substance of the Overarching Funding Agreement and IIF process shall not differ in any material respect to that outlined in this report.
4. Approve the establishment of the Investment Panel as an advisory board to the Cardiff Capital Region Director, as detailed in paragraph 26 of this report and delegate authority to the City Deal Director to appoint, from time to time, the members of the Investment Panel, in accordance with the nomination process set out in paragraph 27 of this report and subject to such delegations being exercised in consultation with the Chair and Vice Chairs of Regional Cabinet.
5. Approve the proposed revised Regional Cabinet Portfolio Roles as set out in Appendix 5 to this report.
6. Approve proposals for the launch and marketing of the Investment and Intervention Framework during the Wales Festival of Innovation.
7. To facilitate the effective operation of the IIF delegate authority to the City Deal Director to:-
 - (i) identify or establish a framework agreement from which external advisors can be procured as and when required, to provide in-depth specialist due diligence advice covering legal, financial,

commercial and technical advice in order to assess a project that is being considered for CCRCF funding;

- (ii) engage any individual, person, firm, partnership or company (and determine the terms of the contract), where the estimated value of appointments for any one project proposal does not exceed £100,000 and costs can be met from within approved budgets and note that the delegation set out in Schedule 1 of the Joint working Agreement (Delegations Policy) paragraph 27 is so amended, and
- (iii) carry out such tasks as are required and allocated to the Director under the Overarching Funding Agreement,

subject to such delegations being exercised: (i) in consultation with the Chair of Regional Cabinet and the S151 Officer for Regional Cabinet; and (ii) any resultant costs incurred being within approved budgets.

- 8. To note and endorse the work of the Cardiff Capital Region City Deal Director in undertaking a review of the process and procedures for Declarations of Interest.

DRAFT: FUNDING SUPPORT SIFT QUESTIONNAIRE

Introduction

This initial questionnaire ("**Questionnaire**") assesses the Applicant's outline Project Proposal to determine its 'in principal' suitability for funding support under the Cardiff Capital Region City Deal ("**City Deal**") under either the: 'Innovation', 'Infrastructure' or 'Challenge' investment priorities under the City Deal. This is intended to operate as an initial gateway process to enable the City Deal Partners to prioritise its resources around those projects that are sufficiently mature, developed and demonstrate strategic fit to warrant a detailed due diligence exercise (to be undertaken with external advisor support) and are most closely aligned with the City Deal's Core Objectives (as detailed in the Cardiff Capital Investment Prospectus).

The City Deal Partners are keen to stress that unsuccessful Applicants at this initial stage will be provided with feedback to hopefully enable a more developed/suitable application to be submitted to the City Deal in the future. Full details of the subsequent stages of the selection procedure are outlined in the Cardiff Capital Investment Prospectus.

In this questionnaire, the "**Applicant**" refers to the organisation or group of promoters that would, if successful, enter into the legally binding contractual agreement with the City Deal Partners (or their nominee).

No offer or request for funding is deemed to have been made or accepted until the relevant contractual documentation has been duly signed by all relevant parties and declared unconditional. No discussion or communication with the City Deal Partners whether prior to, during or subsequent to this selection procedure will imply acceptance of any offer or request for funding or constitute an indication that the Applicant will be awarded funding support. Once the Applicant's proposal has been formally approved following satisfactory conclusion of the subsequent evaluation stages, the City Deal Partners will issue a formal 'Funding Letter' to confirm its decision. Such decision shall be subject to the express terms of the 'Funding Letter' (to be issued by the City Deal Partners following formal approval of the detailed Project Proposal) and the relevant contractual documentation which will need to be agreed and signed for and on behalf of the relevant parties to have contractual and binding effect.

Any costs or expenses incurred by the Applicant (or any other person engaged by the Applicant) will not be reimbursed by the City Deal Partners and City Deal Partners will not be liable in any way to the Applicant or any other person for any costs, expenses or losses incurred by the Applicant or any other person in connection with this Questionnaire.

Background

Please refer to the 'Investment' section of the Cardiff Capital Region City Deal website for further details of the City Deal and the Funds.

The City Deal Partners will need to be satisfied that the Applicant has the appropriate qualities, financial standing, track record and resources to successfully deploy City Deal funds and deliver upon its stated objectives. The City Deal Partners reserve the right to reject any Applicant that fails to satisfy and fully comply with the requirements of the selection process set out in this Questionnaire. If you misrepresent any factual information in completing this Questionnaire, there may be significant consequences and you may be excluded from submitting another application for City Deal support for 2 (two) years.

To reduce the administrative burden of this selection procedure, **documentary evidence is not required when this Questionnaire is submitted**. However, the City Deal Partners reserve the right to ask any Applicant at any time during the selection process to submit all or part of the evidence if considered necessary to verify any statement made and to ensure the proper conduct of the application procedure. **As a minimum, such information/documentary evidence will be provided prior to entry into any funding commitment with the City Deal Partners.**

Section C: Details of the Project Proposal and Funding Support Requirements

Please note your response to the following questions will each be scored (0-10) and then weighted in accordance with the terms of the Scoring and Evaluation Framework set out at Section D. Please note that the following questions are not equally weighted and greater emphasis has been placed on certain questions to reflect the broad and diverse nature of the Applicants across the City Deal's stated investment priorities. Once a score has been awarded for each question, weighting will be applied in order to calculate the weighted score for that question. The sum of these weighted scores will be added to calculate the total weighted score for the Project Proposal.

The City Deal Partners are keen to attract the widest pool of Applicants and recognise that certain investment priorities (e.g. Challenge) may require a greater degree of intervention and naturally attract less experienced Applicants. With that in mind, weightings have been applied to the questions below to help diversify and promote Project Proposals of varying scale and complexity across each of the City Deal's investment priorities.

Any incomplete response will score nil for the relevant question and the City Deal Partners reserve the right to request further clarification in the event of any ambiguity or inconsistency/conflict. [The City Deal Partners reserve the right to reject any Applicant that fails to score a minimum overall score of 6 (Satisfactory)]⁴.

[The City Deal Partners will determine if a minimum overall score of 6 (Satisfactory) has been achieved. The City Partners reserve the right to reject an Applicant that fails to achieve that score mindful that it must prioritise applications for funding support and not deploy the required external resources to commence the detailed due diligence stage of the selection procedure until the Project Proposal is reasonably mature and developed.]

BACKGROUND

- (A) The Councils established the Cardiff Capital Region City Deal ("**City Deal**") and entered into the joint working agreement on 1 March 2017 ("**JWA**") to formalise their respective roles and responsibilities in relation to the City Deal.
- (B) The JWA, amongst other matters, established the Joint Committee that is responsible for overseeing and co-ordinating the discharge of the Councils' obligations in relation to the City Deal. The JWA further provides that sub-committees may be established to delegate any of the Joint Committee's powers relating to the City Deal (provided the scope of such delegation follows, as far as they are applicable, the decision making provisions under the JWA).
- (C) The Councils have determined that the City Deal's objectives will be best served through the establishment of the Fund to target the 'Innovation', 'Infrastructure' and 'Challenge' investment priorities (as contemplated under Clause 8 (Cardiff Capital Region Wider Investment Fund(s)) of the JWA). The Fund will initially be established under this Agreement as a ring-fenced 'block of finance' held by the Accountable Body with the intention to evolve over time into a corporate 'evergreen' fund structure which will enable the funds deployed to be recycled and re-invested via the Fund at a greater pace (on terms to be agreed by the Joint Committee).
- (D) This Agreement confirms the procedure for the evaluation and approval by the Joint Committee of all Approved Projects and the allocation of investment support under the Fund in furtherance of the City Deal objectives. In particular, this Agreement outlines

the respective evaluation stages for each Application; the process for implementing the Investment Framework; the interplay between the Joint Committee and relevant parties; and confirmation of the decision making process. This Agreement shall not serve to amend or in any way take priority over the terms of the JWA.

- (D) The Councils have agreed to appoint the City of Cardiff Council to act as the Accountable Body for and on behalf of the Councils and to discharge the Councils' obligations in relation to the management of the Fund and the investment into any Approved Projects under this Agreement.
- (E) [The Councils wish to enter into this Agreement in furtherance of the objectives of the City Deal pursuant to the powers conferred on them by Sections 101, 102, 111 and 113 of the Local Government Act 1972, Section 1 of the Local Authority (Goods & Services) Act 1970, Section 25 of the Local Government (Wales) Act 1994, Section 2, 19 and 20 of the Local Government Act 2000, Section 9 of the Local Government Wales Measure 2009 and all other enabling powers now vested in the Councils.]

- ...to achieve our GVA, leverage and jobs growth targets
- Set expectations in terms of ambition, priorities & timeframes
- Without such an approach, impossible to ‘size the wider pot’ and think beyond £495m and to build portfolio approach
- ‘Evergreen’ – living off interest, not capital

Journey to date

- Joint Working Agreement establishes an enabling framework - the Assurance Framework
- Assurance Framework is approved document and aligns with JWA Business Plan
- Requires that investment decisions appraised through a 'Regional Impact Assessment Toolkit' (***Investment and Intervention Framework & Toolkit***) and supported by a 'Prospectus for Growth and Prosperity' (***CCR Industrial and Economic Plan***)
- Required due to the absence of detailed pipeline of investment projects at the inception of the City Deal. Provides an objective and robust evaluation procedure to assess and prioritise deliverable investment projects

Clarity & focus

- Industrial and Economic Growth Plan – priorities:
 - CSC
 - Fintech
 - Life sciences
 - Cyber and digital
 - Creative
 - Public services & foundational economy
- Political and industrial leadership
- Economic inclusion and place-sensitive approach
- Wealth creation – wealth distribution - whole of region and not just parts of it
- Clusters and connections
- Evergreen, co-investment, leverage & challenge approach – building resilience
- Range of ‘live projects’ developed/ developing in spirit of principles – Metro Plus, Graduate Scheme, SIPF, CSC & Housing Catalyst Fund
- Backed by Govts & foregrounds ‘three streams’ – Innovation, Infrastructure & Challenge

Key Operating Principles

- Will need the ability to evolve throughout the life of the City Deal as local priorities change, public funding landscape shifts and lessons learnt from early investments
- Formulation of objective criteria that is capable of assessing and scoring a wide range of projects in an independent way
- Best means of giving clear & impartial advice to Regional Cabinet as ONLY decision-makers in process
- Investment Panel (advisory) to be established to assess and make recommendations to Regional Cabinet
- CEX Board becomes Programme Board (additional assurance)
- Provides confidence all investments aligned to City Deal stated goals and core objectives

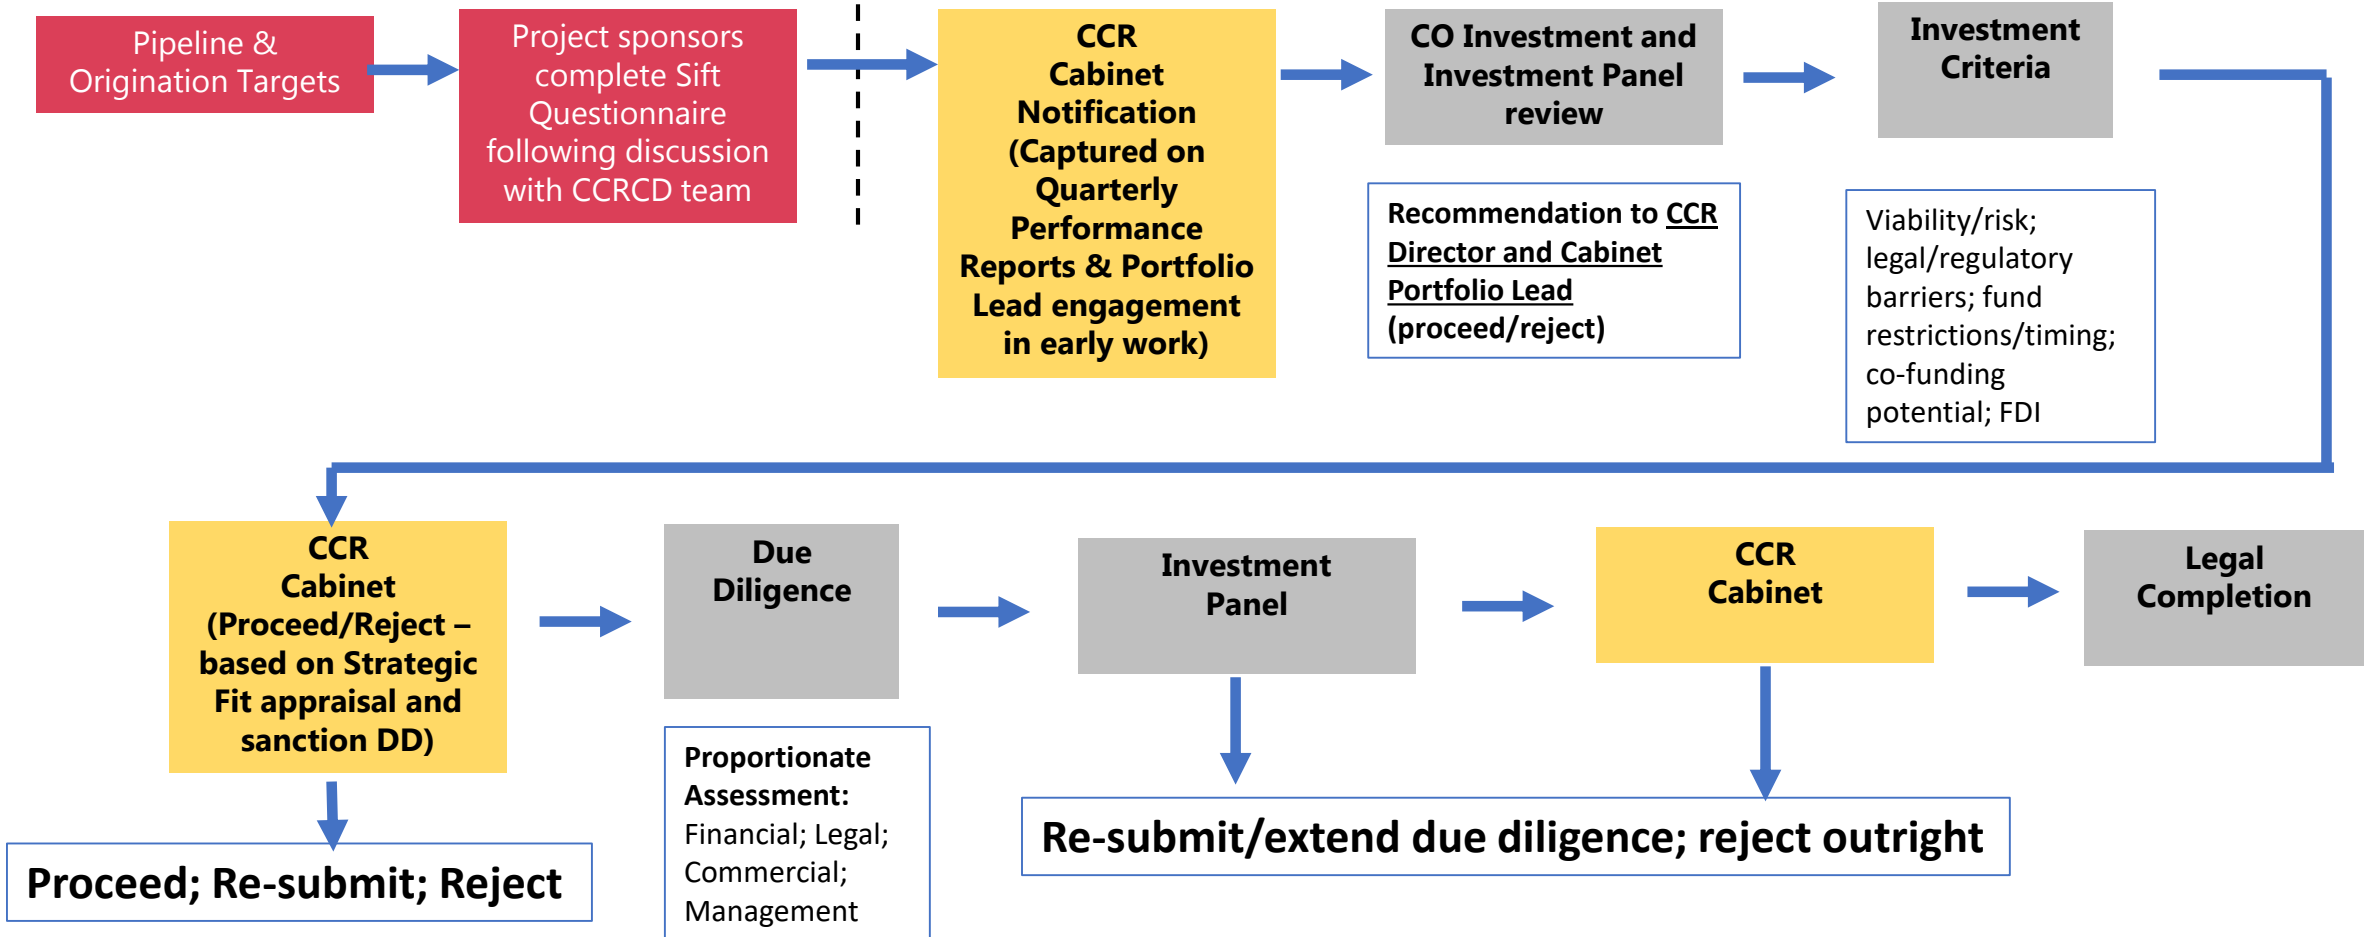

Key Features – Cabinet role

- Project pipeline – formally enter the process by completion of Sift Questionnaire to be reviewed by Chief Investment Officer and Investment Panel.
- Initial exploration needed by the Investment Officer/ Panel to inform sift process (up to set £ amount) to be agreed by Director in conjunction with lead Portfolio Leader – delegated provision
- **Project notification to Regional Cabinet** via Quarterly Performance Report
- Should project ‘pass’ sift and align with an investment priority (Innovation, Infrastructure & Challenge) – **full report to Regional Cabinet to endorse and sign off due diligence costs**
- CIO and Investment Panel oversee technical assessment process
- Use of informal **Cabinet briefings** to engage and inform as required
- **Leadership role of lead portfolio leader** – ongoing
- Investment Panel advises Director who makes **recommendations to Regional Cabinet**
- **Final report to Regional Cabinet to approve/ reject project** (initiate legal completion and award of funds)

Enhance Productivity & Economic Inclusion

Reduce Economic Growth Inhibitors

Address Place based disparities & spatial benefit

Role of Cabinet & Lead Portfolio-holders

- Take advice, evidence and input from experts and make decisions
- Strategic leadership role
- Appropriate space between Cabinet and technical and operational assessment processes
- But opportunity to get into detail if/ when needed – Investment Panel are **your** advisors
- Requires more strategic role of portfolio leads
- You can still say NO

Investment Panel & Governance

- Gives independence, technical support and expertise and balance
- Advising on suitability of investments, overseeing assessment process and ongoing monitoring and review of live projects
- Proposed 10 strong membership
- 5 LA (or public body) reps – with commercial/ financial pedigree and expertise
- 5 Regional Economic Growth Partnership reps
- Nominations to be sought from CEX Group and REGP and submitted to Director
- Representation to be agreed by Cabinet Chair and Vice Chairs

- CEX board to become Programme Board – formal role for CEXs

Role of key officers

- Appropriate separation of duties
- Clear water between roles of Director/Deputy and Chief Investment Officer
- In order to provide separation across technical and strategic/ policy advisory roles and support
- Legal and professional advice taken to ensure synergies are maximised in small team environment, but at same time, proper distance & impartiality is preserved
- Probity – accountability – clarity

Gateway Review

- Endorsement of Wales and UK Govts
- Flagged up by WAO in 18/19 audit review as key factor
- Central to local evaluation framework
- Recognised as good practice, setting right principles and foundations and 'self aware'
- Demonstrates science to approach
- Ongoing monitoring and evaluation – built in rather than after thought

Conflicts of Interest

- Process relies upon Register of Interest in individual LAs
- Refresh and review with commencement of Investment Process
- Process for Partnerships, in particular, REGP
- Open register is suggested and signing up to enhanced Nolan Principles
- Small region with connections across the place – open, up-front and visible
