Accident Ref Number	Accident Date	Injury Location	Injury Type	Reason Reportable	Details	Accident Investigation - Action Taken
2066	27-Jun-2008	Shoulder	Strain/Sprain	Lost time >3 days	Picking up jack hammer onto lorry caught on side.	Mike was referred to Occ Health for a shoulder problem before this incident, When I was told about it I thought that it was a re-occurrence of the problem. Apparently, while lifting the jack hammer onto the wagon Mike caught the point in the hook on the side of the wagon, it was a complete accident and jarred his shoulder.
2028	5-Jun-2008	Leg	Allergic Response	Lost time >3 days	Working in Abertridwr, Howard Price (loader) called me to the rear of the truck to have a look at the bin lift, as they were not working, I pressed the up button and a hydraulic pipe on the nearside lift sheared with the pressure covering me in hydraulic oil. My skin became irritant and a rash appeared for several days after.	Defective pipe replaced. Mechanism checked
1946	29-Apr-2008	Shoulder & back	Strain/Sprain	Lost time >3 days	Fitting packing ram to vehicle 5532. Lifting into position pulled muscle in left shoulder and lower back.	IP trained in manual handling. Hoist for assisting employees to change rams, purchased.
1924	2-Apr-2008	Back	Strain/Sprain	Lost time >3 days	Whilst lifting benches onto the back of the van at the yard I felt a pulling in my back I did not lift anything for the rest of the day. I woke the next day in pain and reported sick.	Team lift being used to lift wooden bench. Both employees involved trained in Manual handling.

1996	21-Apr-2008	Back	Strain/Sprain	Lost time >3 days	Tipping rubbish from bin into bag.	IP lifted a number of bags at the same time. Realises, in retrospect, that she should not have done. Received counselling from Supervisor

Accident Ref Number	Accident Date	Injury Location	Injury Type	Reason Reportable	Details	Accident Investigation - Action taken
2025	24-Jun-2008	Arms	Other Known	Lost time >3 days	Jackie was delivering meals; the dog at the address bit her arm. She was taken to Caerphilly Miners Hospital for treatment to her wound.	Dog was destroyed.
1986	1-May-2008	Toe	Fracture	Lost time >3 days	While walking up the stairs IP tripped over stair nosing and fell forward, stubbing his large toe - causing a fracture.	H&S Support Officer investigated. IP was wearing unsuitable footwear, which caused the extent of injury (fractured toe). Advised that this type of trainer not suitable for workplace. Manager arranged for all step nosings to be replaced before investigation took place.
1987	1-May-2008	Back	Strain/Sprain	Lost time >3 days	IP was pushed from behind into bottom of her back by a pupil. IP did not report sick until the Monday and reported that she would not be in work for the whole week due to the injury sustained.	No investigation necessary.
1978	6-May-2008	Arms	Fracture	Major Injury or Condition	IP was in the wooded area/trees at the back of the school taking photographs. IP stepped backwards and tripped over a tree root, putting her hand out and landed on the left hand, injuring the wrist.	Health and Safety Support Officer visited. Not a tree root - this was a cut tree trunk used as a seat - advised to remove immediately. Done so same day.

Directorate of Social Services

Accident Ref Number	Accident Date	Injury Location	Injury Type	Reason Reportable	Details	Accident Investigation - Action taken
2045	4-Jun-2008	Shoulder	Strain/Sprain	Lost time >3 days	IP was assisting client to get out of the chair and to walk across the room. SU's knees buckled and he pulled on IP's arm causing pain across her shoulders and down her back.	OT assessment to be reviewed Individual Referred to Occ Health. IP up to date with M & H training.
2056	19-May-2008	Leg	Strain/Sprain	Lost time >3 days	IP was playing badminton with Service Users, IP experienced cramp like feelings in lower left leg, causing severe pain in insole area.	Investigation completed, staff advised of correct procedure to follow.
2034	10-May-2008	Ankle Injury	Strain/Sprain	Lost time >3 days	Whilst leaving clients home IP turned and went over on her ankle.	IP was wearing flat shoes Path even and dry.
1942	17-Apr-2008	Neck	Strain/Sprain	Lost time >3 days	IP pulled lift tray from under the bus, causing IP to pull a muscle at the base of the neck.	IP being referred to Occ Health. Investigation completed and the lift was inspected.
2044	15-May-2008	Finger	Cut or Laceration	Lost time >3 days	IP was putting dishes into steriliser sink - a dish broke and cut her right hand - from the base of her little finger down the side about two inches.	No issues identified.

No reportable accidents for Chief Executives/ Corporate Services.

Injury to Member of Public

Accident Ref Number	Accident Date	Injury Location	Injury Type	Reason Reportable	Details	Accident Investigation - Action taken
1985	28/04/08	Other – Not Specified	Unknown	Taken to hospital	IP was waiting to start her swimming lesson - she was dipping her toe into the water, holding on the handrail into the pool. The class tutor called for everyone to line up to call the register when the IP slipped and fell into the pool.	H&S Officer investigated fully. There was no horseplay taking place, the IP slipped on to the edge of the pool injuring herself. Supervision was adequate. Procedure has now changed in that all pupils must line up against the wall until register called.
1982	05/06/08	Arm	Fracture	Taken to hospital	IP went to sit on a bike and toppled over onto the grassed area.	Health & Safety Support Officer visited. Area was not suitably cordoned off - done so immediately. School contacted DLO to arrange for fence to be 'meshed' - until this is made safe no pupils to enter area.
1981	08/05/08	Ankle	Fracture	Taken to hospital	Fell while playing football (supervised).	Sports injury - no further investigation necessary.
1984	13/05/08	Arm	Fracture	Taken to hospital	IP slipped whilst running on the grass and fell, banging her elbow.	Sports injury - no further investigation necessary.
1988	14/05/08	Wrist	Fracture	Taken to hospital	Parachute being used for lesson, when IP tripped over another child, subsequently falling on wrist.	No further investigation necessary.
2067	17/06/08	Arm	Fracture	Taken to hospital	Slipped down steps	IP is visually impaired - DDA Officer contacted
2019	19/06/08	Head	Cut/ Laceration	Taken to hospital	Clash of heads during football match - deep cut and swelling to forehead.	Sports injury - no further investigation necessary.

2016	19/06/08	Head	Cut/ Laceration	Taken to hospital	Tutor walked to a classroom sink to wash science apparatus. IP ran after her, tripped and fell forwards, hitting the top of his head of the edge of a cupboard.	No further investigation required.
2020	19/06/08	Head	Cut/ Laceration	Taken to hospital	Clash of heads during football match - Deep cut and swelling to forehead.	Sports injury - no further investigation necessary.
2083	20/06/08	Face	Fracture	Taken to hospital	IP was involved in a GCSE football lesson. He went for a header with another pupil and the other pupil's leg caught him in the nose.	23/06/08 - Pupil reported to school that he had broken his nose.
2073	23/06/08	Arm	Fracture	Taken to hospital	IP fell while skipping using a rope and put her arm out to save herself. Landed on her arm and leg.	School confirmed that it was 2 weeks later that IP was taken to hospital to find that her arm was broken.
2079	26/06/08	Wrist	Fracture	Taken to hospital	Walking up middle stairwell at the end of lunch time, IP's shoe fell off and she tripped and fell 'up' the stairs. Hurt her left wrist.	Message from school the following day - IP went to A & E and she has broken her wrist.
	25/06/08	Head	Cut/ Laceration	Taken to hospital	IP was walking off school premises after her dance class at a School, when she tripped over the school gate securing point, falling forward and hitting her head on the floor, leaving a deep cut on her forehead. This accident occurred after leaving a Community Education activity but on the school site.	H&S Support Officer contacted the school site manager who confirmed that the gate post stop device which is set into the concrete is no longer required and will be removed at the earliest convenience and filled with concrete.
	10/06/08	Leg	Cut/ Laceration	Taken to Hospital	Pupil was hit by a javelin in the lower right leg during an athletics practice. Practice halted immediately and the area cleared. Ambulance called and pupil treated and taken to hospital.	We are still awaiting the full investigation from the school.
2046	30/4/08	Head	Cut/ Laceration	Taken to Hospital	SU was sat in a low chair with her feet in a foot spa. SU took her feet out of the spa and went to stand, but slipped on the polished tiles as her feet were wet. SU had cut to left side of head and was sent to hospital.	Risk Assessment has now been put in place.
