- 2.2 Audit topics are risk based and focus on key areas of concern for the Authority or areas of HSE priority. All audit areas and topics are chosen in consultation with Directorate Health and Safety Officers.

- 2.5 Auditing is an essential part of any health and safety management system. Directorate and Corporate Health and Safety Officers will continue to work together to use audits as a tool to identify gaps in health and safety performance, and to improve health and safety standards across the Authority.
- 2.6 The following number of Audits have been completed by the Corporate Health and Safety Unit during the fourth quarter of 2008-09:

Directorate	Number of Audits Completed	Number of Action Plans Outstanding from Managers
