For all enquiries relating to this agenda please contact Julie Lloyd
(Tel: 01443 864246 Email: lloydj4@caerphilly.gov.uk)

Date: 14th March 2023

To Whom it May Concern,

A multi-locational meeting of the **Corporate Health and Safety Committee** will be held in Penallta House, and via Microsoft Teams on **Monday, 20th March, 2023 at 10.00 am** to consider the matters contained in the following agenda. Councillors and the public wishing to speak on any item can do so by making a request to the Chair. You are also welcome to use Welsh at the meeting, both these requests require a minimum notice period of 3 working days. A simultaneous translation will be provided on request.

Members of the public or Press may attend in person at Penallta House or may view the meeting live via the following link: <http://civico.net/caerphilly>

This meeting will be live-streamed and a recording made available to view via the Council's website, except for discussions involving confidential or exempt items. Therefore the images/audio of those individuals speaking will be publicly available to all via the Council's website at www.caerphilly.gov.uk

Yours faithfully,

A handwritten signature in black ink, appearing to read 'Chrissy'.

Christina Harrhy
CHIEF EXECUTIVE

AGENDA

- 1 To receive apologies for absence.

Pages

A greener place Man gwyrdach

2 Declarations of Interest.

Councillors and Officers are reminded of their personal responsibility to declare any personal and/or prejudicial interest(s) in respect of any item of business on this agenda in accordance with the Local Government Act 2000, the Council's Constitution and the Code of Conduct for both Councillors and Officers.

To receive and consider the following report(s):-

- | | | |
|---|---|-------|
| 3 | Health and Safety Executive Asbestos Management Visits. | 1 - 4 |
| 4 | Health and Safety Policy Review Timetable. | 5 - 8 |

To receive and consider the following information items*:-

- | | | |
|---|--|---------|
| 5 | Recent Health and Safety Executive Updates. | 9 - 12 |
| 6 | Accident Statistics Report for October to December 2022. | 13 - 38 |

** If a member of the Committee wishes for either of the above information items to be brought forward for discussion at the meeting please contact Julie Lloyd, Tel. 01443 864246 by 10.00 am on Friday 17th March 2023.*

Circulation:

Councillors M.A. Adams, M. Chacon-Dawson, R. Chapman, G. Enright, S. Kent, J. Sadler and W. Williams

Trade Union Representatives.

And Appropriate Officers

HOW WE WILL USE YOUR INFORMATION

Those individuals that attend committee meetings to speak/give evidence will be named in the minutes of that meeting, sometimes this will include their place of employment or business and opinions expressed. Minutes of Meetings including details of speakers will be publicly available to all via the Council website at www.caerphilly.gov.uk. except for discussions involving confidential or exempt items.

You have a number of rights in relation to your information, including the rights of access to information we hold about you and the right of complaint if you are unhappy with the way your information is being processed.

For further information on how we process your information and your rights please view the [Full Committee Meetings Privacy Notice](#) on our website or contact Legal Services by email griffd2@caerphilly.gov.uk or telephone 01443 863028.

CORPORATE HEALTH AND SAFETY COMMITTEE – 20TH MARCH 2023

SUBJECT: HEALTH AND SAFETY EXECUTIVE ASBESTOS MANAGEMENT VISITS

REPORT BY: CORPORATE DIRECTOR EDUCATION AND CORPORATE SERVICES

1. PURPOSE OF REPORT

- 1.1 The purpose of this report is to inform the Committee of the outcome of recent asbestos management inspection visits by the Health and Safety Executive (HSE).

2. SUMMARY

- 2.1 The report is provided as information for members of the Committee, to ensure that they are kept informed of any matters that could impact on the management of health and safety within the Council.

3. RECOMMENDATIONS

- 3.1 That the Committee note the contents of the report.

4. REASONS FOR THE RECOMMENDATIONS

- 4.1 To keep the Committee up to date on any health and issues that may be relevant or may require further consideration.

5. THE REPORT

- 5.1 HSE Released a Bulletin in July 2022 to inform Schools that HSE inspectors were going to assess the management of asbestos in schools by undertaking a programme of inspections to primary and secondary schools in England, Scotland and Wales from September 2022 onwards.
- 5.2 The purpose of the inspections were to assess how schools are managing the risks from asbestos within the school estate and if they are meeting the 'duty to manage' (DTM) requirements under Regulation 4 of the Control of Asbestos Regulations 2012 (CAR).

- 5.3 HSE Inspectors Liam Osbourne & Ben Voyce visited two CCBC Schools on pre-arranged visits. St Cenydd Community Comprehensive & Maesycwmmmer Primary Schools were chosen by the HSE for the visits. Both schools were visited on 14th November 2022
- 5.4 The Inspectors met with the Head Teachers, Building Manager (St Cenydd) and representatives of the schools caretaking staff were present at the site meetings. Each school visit was supported by a member of the Health & Safety SLA Team and a member of the Asbestos Management Team.
- 5.5 Each visit began with a meeting with the school's senior management team to gain an understanding of the asbestos management arrangements. The format of the meetings was to discuss any incidents, asbestos removals, levels and types of staff training, future plans and any concerns. The Inspectors asked various questions relating to known Asbestos Containing Materials (ACM's) on site, their condition, management and specifically how ACMs are maintained in sound condition and are not damaged by foreseeable activities within the premises. The visit included a visual inspection of both premises where they inspected areas of known asbestos and areas where asbestos had previously been removed/ overclad.
- 5.6 The HSE Officers were satisfied that asbestos was being well managed at both premises and that the schools were supported by the Authority on their management of asbestos including provision of surveys, training, record keeping (changes in condition/abatement works) and asbestos management advice.
- 5.7 No formal areas for improvement were recorded although ensuring that deteriorating ACM's are addressed was discussed.

5.8 Conclusion

- 5.8.1 Asbestos management remains a key priority for Local Authority consideration. Although much proactive work has been done over the past 10 years ACM's require ongoing management to ensure effective control of the risk. As an authority we continue to review and improve processes and are currently providing all Premises Managers with refresher training on their duty to manage ACM's. Monitoring ACM's is also an area where work is ongoing with asbestos tasks now forming part of escalation processes to ensure that any recommended works are completed within a timely manner. Ensuring that ACM's are considered, and risks assessed and controlled both as part of day to day management and when work is undertaken is a key priority and assists the Authority in meeting its legal obligations, in protecting the health and safety of employees and others.

6. ASSUMPTIONS

- 6.1 No assumptions have been made regarding the information contained in this report.

7. SUMMARY OF INTEGRATED IMPACT ASSESSMENT

- 7.1 This report is for information only and so an Integrated Impact Assessment is not required

8. FINANCIAL IMPLICATIONS

- 8.1 There are no financial implications.

9. PERSONNEL IMPLICATIONS

- 9.1 There are no personnel implications

10. CONSULTATIONS

10.1 All comments from consultees have been included in the report.

11. STATUTORY POWER

11.1 The Health and Safety at Work etc. Act 1974 and Management of Health and Safety at Work Regulations 1999.

Author: Andrew Wigley, Principal Health and Safety Officer, wiglea@caerphilly.gov.uk

Consultees: Christina HARRY, Chief Executive, harrhc@caerphilly.gov.uk

CORPORATE HEALTH AND SAFETY COMMITTEE – 20TH MARCH 2023

SUBJECT: HEALTH AND SAFETY POLICY REVIEW TIMETABLE

REPORT BY: CORPORATE DIRECTOR EDUCATION AND CORPORATE SERVICES

1. PURPOSE OF REPORT

- 1.1 The purpose of this report is to provide Health and Safety Committee members with a proposed timetable for review of current Health and Safety policies and seek their views and approval.

2. SUMMARY

- 2.1 The report is provided as information for members of the Committee, to ensure that they are kept informed and are able to influence the schedule of policy development.

3. RECOMMENDATIONS

- 3.1 That the Committee discuss and agree the contents of the report.

4. REASONS FOR THE RECOMMENDATIONS

- 4.1 For Committee to be updated and to influence the priorities and timescale for review of Health and Safety policies.

5. THE REPORT

- 5.1 The following table sets out the proposed revised policies to be considered by Health and Safety Committee for 2023/24:

June 2023	Corporate Asbestos Management Plan Display Screen Equipment Policy Corporate Health and Safety Policy Lone Working Policy First Aid at Work Policy
-----------	--

November 2023	Employee Well-Being Management Policy and Corporate Management Arrangements Control of Hand Arm Vibration Exposure Policy and Corporate Management Arrangements Noise at Work Policy and Corporate Management Arrangements Accident/Incident Reporting and Investigation Policy Manual Handling Policy and Corporate Management Arrangements Fire Safety Policy and Corporate Management Arrangements Domestic Asbestos Management Plan Control of Substances Hazardous to Health Policy Contractor Management Policy
February 2024	Electrical Safety Policy and Corporate Management Arrangements Legionella Control

5.1.1 The programme may be subject to change depending on issues that may become topical, for example any new Health & Safety Executive (HSE)/Fire Service guidance and workload.

5.1.2 Where policies are subject to minor changes then one report summarising the changes will be brought to committee covering a number of policies.

5.6 Conclusion

5.6.1 Health and Safety remains a key priority for Local Authority consideration. Having in place reviewed and approved policies will help to ensure that CCBC is meeting its legal responsibilities under health and safety legislation and will assist in ensuring there is a robust health and safety framework in place to keep employees and others safe.

6. ASSUMPTIONS

6.1 No assumptions have been made regarding the information contained in this report.

7. SUMMARY OF INTEGRATED IMPACT ASSESSMENT

7.1 This report is for information only and so an Integrated Impact Assessment is not required

8. FINANCIAL IMPLICATIONS

8.1 There are no financial implications.

9. PERSONNEL IMPLICATIONS

9.1 There are no personnel implications

10. CONSULTATIONS

10.1 All comments from consultees have been included in the report.

11. STATUTORY POWER

11.1 The Health and Safety at Work etc. Act 1974
Management of Health and Safety at Work Regulations 1999.

CORPORATE HEALTH AND SAFETY COMMITTEE – 20TH MARCH 2023

SUBJECT: RECENT HEALTH AND SAFETY EXECUTIVE UPDATES

REPORT BY: CORPORATE DIRECTOR EDUCATION AND CORPORATE SERVICES

1. PURPOSE OF REPORT

- 1.1 The purpose of this report is to inform the Committee about recent relevant activity of the Health and Safety Executive (HSE).

2. SUMMARY

- 2.1 The report is provided as information for members of the Committee, to ensure that they are kept informed of any matters that could impact on the management of health and safety within the Council.

3. RECOMMENDATIONS

- 3.1 That the Committee note the contents of the report.

4. REASONS FOR THE RECOMMENDATIONS

- 4.1 To keep the Committee up to date on any health and issues that may be relevant or may require further consideration.

5. THE REPORT

5.1 HSE prosecution – pupil killed by decaying tree at that collapsed at school

- 5.1.1 Newcastle City Council has been fined £280,000 after the death of a six-year-old girl who was hit by a falling tree in her school playground.

- 5.1.2 A year 2 pupil was playing with friends at Gosforth Park First School in Newcastle upon Tyne on 25 September 2020 when a decaying willow tree collapsed. The pupil was freed from under the tree by emergency services and taken to a hospital, where she died the following morning. Several other children were also hit by the falling tree but managed to escape, some with superficial injuries.

- 5.1.3 An investigation by the HSE found the tree had decayed and was in a poor condition.

- 5.1.4 Newcastle City Council pleaded guilty to breaching section 3(1) of the Health and Safety at Work etc. Act 1974 for failing to identify the extent of the decay or to manage the risk posed by the tree. It was fined £280,000 and ordered to pay costs of £8,020 by South Tyneside Magistrates on 10 January 2023.
- 5.1.5 To minimise the risk of such an incident with CCBC, we employ professional staff suitably qualified and experienced in arboriculture and we have a tree management strategy, which, in summary, adopts the following principles: -
- Pro-active or 'planned' inspections are based on a 'zoned' approach to land use types, based on the frequency of public access within range of the tree and the weight of pedestrian and vehicular traffic in a given location. Tree inspections are undertaken in those areas where trees pose the greatest risk to people or property. Other management issues are also identified and addressed as far as possible.
 - Higher use zoned sites (where CCBC aims to inspect such sites every two years) includes main transport routes (A roads and B roads) (last surveyed 2021, re-surveys due 2023), schools (last surveyed 2021, re-surveys due 2023), cemeteries (previously surveyed 2020 & 2022), sheltered Housing schemes (last surveyed 2019-20, re-survey ongoing 2022-23), and key parks (last surveyed 2019-20, re-survey ongoing 2022-23).
 - Those sites not directly managed by CCBC Parks & Bereavement Services – such as schools, and sheltered housing sites – are provided with full reports and/or detailed works recommendations (whichever is most appropriate) itemising those trees requiring maintenance with the appropriate prioritisations. The management responsible for those types of sites are therefore given the necessary professional recommendations regarding trees at their site for them to act on accordingly.
 - Trees with significant issues which are located in lower zoned sites, or sites only subjected to ad hoc (unplanned) inspections are highlighted for appropriate maintenance or more frequent inspections, or monitoring visits as necessary.
 - Based on the condition of the tree(s), and the severity of any defects present; a priority for action and timetable for maintenance is allocated accordingly.

5.2 Prosecution for failing to implement measures identified by a risk assessment

- 5.2.1 A health board has been fined £180,000 after a 78 year old patient died while being treated at a hospital, due to failings to implement actions arising from a risk assessment relating to the patient's care needs.
- 5.2.2 The patient , was brought to Raigmore Hospital in Inverness, on 6 February 2019 following a suspected fall at his home and later admitted to the hospital's surgical ward.
- 5.2.3 While in hospital, the patient suffered from three additional falls on 6, 12 and 14 February 2019, which led to bleeding on the brain. He passed away from fatal head trauma two days after his final fall.
- 5.2.4 An investigation by the HSE found NHS Highland, the health board responsible for Raigmore Hospital, failed to provide the necessary nursing staff to ensure the 1:1 ratio of care was applied.
- 5.2.5 NHS Highland pleaded guilty to breaching Regulation 5(1) of the Management of Health and Safety at Work Regulations 1999, and was fined £180,000 at Inverness Sheriff Court on 31 January 2023.
- 5.2.6 CCBC do not provide nursing care and all of our social care provision is based on risk assessments that continue to be monitored and reviewed as appropriate.

5.3 HSE issue warning regarding fake 'new' 'Health and Safety Law: What You Should Know' posters

- 5.3.1 The HSE have issued an alert that they are aware of suppliers selling fake versions of their 'Health and Safety Law: What You Should Know' poster, and making out that new posters are required.
- 5.3.2 Premises displaying the 2009 version of the law poster (which feature 4 photo images below the poster title and a distinct red bar along the bottom with the HSE logo in white) do not need to replace it with a reprint of the poster published in 2018 that incorporated enhanced security features, as the content did not change.
- 5.3.3 Under the Health and Safety Information for Employees Regulations, all employers have a legal duty to display the official HSE poster in a prominent position in each workplace location, ensuring that all workers can read and have access to it. Such posters are best purchased directly from the HSE - <https://books.hse.gov.uk> Alternatively, employers may provide each worker with a copy of the free to download equivalent leaflet, together with the information that would otherwise be written onto the poster, and evidence that this has been done.
- 5.3.4 Guidance was issued in 2019 and remains available on the Health and Safety Division's intranet portal regarding the requirements to display the poster and where to includes details on how and where to purchase official copies.
- 5.5.5 Checks that the correct version is displayed forms a part of general health and safety site inspections and management audits conducted by Health and Safety Officers with any non-compliances identified and put as an action point in reports for respective managers . The issue of fake versions of the law poster being displayed has not been identified as a concern based on inspections to date of CCBC workplaces.

5.4 Conclusion

- 5.4.1 Health and safety remains a key priority for Local Authority consideration. Although the HSE are less pro-active than previously, they will investigate and prosecute if there are health and safety failings. As an Authority we ensure that we keep up to date with knowledge of recent prosecutions or safety notices to enable us to implement any learning from such actions within Local Authority services if applicable. Ensuring that health and safety is considered and risks assessed and controlled, assists the Authority in meeting its legal obligations, in protecting the health and safety of employees and others.

6. ASSUMPTIONS

- 6.1 No assumptions have been made regarding the information contained in this report.

7. SUMMARY OF INTEGRATED IMPACT ASSESSMENT

- 7.1 This report is for information only and so an Integrated Impact Assessment is not required

8. FINANCIAL IMPLICATIONS

- 8.1 There are no financial implications.

9. PERSONNEL IMPLICATIONS

9.1 There are no personnel implications

10. CONSULTATIONS

10.1 All comments from consultees have been included in the report.

11. STATUTORY POWER

11.1 The Health and Safety at Work etc. Act 1974

CORPORATE HEALTH AND SAFETY COMMITTEE – 20TH MARCH 2023

**SUBJECT: ACCIDENT STATISTICS REPORT FOR OCTOBER TO DECEMBER
2022**

**REPORT BY: CORPORATE DIRECTOR EDUCATION AND CORPORATE
SERVICES**

1. PURPOSE OF REPORT

- 1.1 The purpose of this report is to inform the Committee of the numbers and types of work-related accidents/incidents that occurred during the period of October to December 2022 (inclusive).

2. SUMMARY

- 2.1 The following report provides accident statistics for October to December 2022 (inclusive). Accident statistics are produced for each quarter and presented to the members of the Health and Safety Committee for information. The appendices are graphs illustrating these statistics, and include for each quarter period for the previous 2 years for comparison.

3. RECOMMENDATIONS

- 3.1 That the Committee note the contents of the report.

4. REASONS FOR THE RECOMMENDATIONS

- 4.1 To keep the Committee up to date on any health and issues that may be relevant or may require further consideration.

5. THE REPORT

- 5.1.1 The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013 require accidents which arise as a result of, or in connection with, work to be categorised as follows and reported to the Health and Safety Executive (HSE):

- All deaths to workers and non-workers, except for suicides,
- 'Specified injury' - including a fracture, other than to fingers, thumbs and toes; amputations; any injury likely to lead to permanent loss or reduction of sight; any crush

injury to the head or torso causing damage to the brain or internal organs; serious burns (including scalding) covering more than 10% of the body, or causing significant damage to eyes, respiratory system or other vital organs); scalpings (separation of skin from the head) requiring hospital treatment; loss of consciousness caused by head injury or asphyxia; and any other injury arising from working in an enclosed space which leads to hypothermia or heat-induced illness or requires resuscitation or admittance to hospital for more than 24 hours.

- Accidents which cause an employee to be away from work or unable to perform their normal work duties for more than seven consecutive days (not counting the day of the accident) as a result of their injury.
- Work-related accidents involving members of the public or people who are not at work (including pupils) if the injured person is taken from the scene of the accident directly to hospital for treatment to that injury.
- Dangerous occurrences are specified near-miss events that do not cause injury or ill health but had potential to do so as defined in RIDDOR, such as failure of collapse of lifting equipment or accidental release of a hazardous substance.
- Work-related causes of ill health – defined as
 - (a) Carpal Tunnel Syndrome, where the person's work involves regular use of percussive or vibrating tools;
 - (b) cramp in the hand or forearm, where the person's work involves prolonged periods of repetitive movement of the fingers, hand or arm;
 - (c) occupational dermatitis, where the person's work involves significant or regular exposure to a known skin sensitizer or irritant;
 - (d) Hand Arm Vibration Syndrome, where the person's work involves regular use of percussive or vibrating tools, or the holding of materials which are subject to percussive processes, or processes causing vibration;
 - (e) occupational asthma, where the person's work involves significant or regular exposure to a known respiratory sensitizer; or
 - (f) tendonitis or tenosynovitis in the hand or forearm, where the person's work is physically demanding and involves frequent, repetitive movements,

5.1.2 The term 'minor injury' refers to any accident or incident causing injury that is not included in point 5.1.1 and therefore is not reportable to the Health and Safety Executive. Accidents in this classification need only be reported to the Health and Safety Division if they affect:

- Employees while they are at work.
- Pupils, clients and members of the public who are injured as a result of work activity while they are on Council premises or using the facilities.
- Any persons who are injured as a result of any work activity carried out by or on behalf of the Authority

5.1.3 The term 'near miss' refers to any significant work-related incident reported that caused no injury but had potential to cause at least one person to be injured or put at risk of ill-health as a consequence of the incident, but not meeting the legal definition in RIDDOR of a 'dangerous occurrence.'

5.1.4 Appendix 1 provides details on all of the accidents for the Authority that were recorded by the Health and Safety Division between October to December 2022
Appendix 2 provides details of the same for the period July - September 2022.
Appendix 3 provides details for the period April - June 2022
Appendix 4 provides details for the period January – March 2022
These are categorised by accident or incident type, i.e. reasons as set out in points 5.1.1, 5.1.2 and 5.1.3.

5.1.5 For comparison, tables for the same quarter periods during 2020 and 2021 are provided as Appendices 9 to 13.

- 5.1.6 Appendix 5 shows the RIDDOR-reportable accidents per directorate between October to December 2022 and the injury causation.
Appendix 6 provides for the period July - September 2022
Appendix 7 provides is for the period April – June
Appendix 8 provides for the period January to March 2022
- 5.1.7 For comparison, tables for the same periods during 2020 and 2021 are provided as Appendices 14 to 18.
- 5.1.8 There was seven RIDDOR-reportable accidents in the period October to December 2022 in the Communities Directorate.
- 5.1.9 There was two RIDDOR-reportable accident in the period October to December 2022 in the Social Services and Housing Directorate.
- 5.1.10 There was four RIDDOR-reportable accident in the period October to December 2022 in the Education and Corporate Services Directorate.
- 5.1.11 For the purposes of reporting, staff who are working for the Authority via an agency are treated as employees. It should also be noted that when making comparisons with earlier years' reports there has been a change in the management structure within the Authority, with certain service areas now falling under different Directorates.
- 5.1.12 Ten of these RIDDOR-reportable incidents reported related to injuries causing more than 7 consecutive days incapacitation. One related to a specified injury. Two related to members of the public taken directly to hospital for medical treatment due to their injury.
- 5.1.13 There have been some follow up enquiries but no further action from the HSE with regards to one of these RIDDOR-reportable accidents.
- 5.1.14 There are no common themes or linked accidents in a particular service area.
- 5.1.15 There have been no RIDDOR-reportable diseases or dangerous occurrences throughout this period.
- 5.1.16 Three near-miss incidents were also recorded during the period.

5.2 Conclusion

- 5.2.1 RIDDOR-reportable incidents remain consistently low. This is encouraging and demonstrates the positive benefits of interventions of Health and Safety Officers regarding audits of workplaces and work activities, and the provision of health and safety related training.
- 5.2.2 Near-miss reporting remains low. The corporate Accident/Incident Reporting and Investigation Policy has been reviewed and includes new arrangements for reporting near miss incidents to improve reporting rates.

6. ASSUMPTIONS

- 6.1 No assumptions have been made regarding the information contained in this report.

7. SUMMARY OF INTEGRATED IMPACT ASSESSMENT

- 7.1 This report is for information only and so an Integrated Impact Assessment is not required

8. FINANCIAL IMPLICATIONS

8.1 There are no financial implications.

9. PERSONNEL IMPLICATIONS

9.1 There are no personnel implications.
