

Appendix A

Components of the Flood Risk Management Plan as Detailed in the Flood Risk Regulations – Part 4

- Each Lead Local Flood Authority has a duty to prepare a Flood Risk Management Plan in relation to each relevant Flood Risk Area.
- Natural Resources Wales must review the Flood Risk Management Plan and may recommend Modifications.
- Each Flood Risk Management Plan must include the following:
 - Objectives for the purpose of managing flood risk.
 - Measures for achieving the objectives.
 - Objectives must be set to reduce the adverse consequences of flooding for;
 - Human health
 - Economic health or
 - The environmental (including cultural heritage) and reducing the likelihood of flooding, whether by exercising powers to carry out structural work or otherwise.
 - Measures must include measures for;
 - Prevention of flooding
 - Protection of individuals, communities and the environment against the consequences of flooding and
 - Arrangements for forecasting and warning.
 - Measures must have regard to;
 - the cost and benefits of different methods of managing flood risk
 - the information included in the flood hazard maps and the flood risk maps and the flood risk maps
 - the river basin management plan for the area
 - the effect of floodplains that retain flood water
 - the environmental objectives
 - the likely effect of a flood, and of different methods of managing a flood, on a local area and the environment.
 - The Flood Risk Management Plan must include;
 - a map showing the boundaries of the flood risk area
 - a summary of the conclusions drawn from the flood hazard and the flood risk maps
 - a description of the proposed timing and manner of implementing the measures, including details of the bodies responsible for implementation
 - a description of the way in which implementation of the measures will be monitored
 - a report of the consultation and
 - details of the co-ordination between the measures in the Flood Risk Management Plan and the river basin management plan.
