

## HEALTH, SOCIAL CARE AND WELLBEING SCRUTINY COMMITTEE – 11TH SEPTEMBER 2018

**SUBJECT: WELL-BEING OBJECTIVES 2017/18 – YEAR END UPDATE**

**REPORT BY: CORPORATE DIRECTOR, SOCIAL SERVICES & HOUSING**

---

### **1. PURPOSE OF REPORT**

1.1 The Local Government (Wales) Measure 2009 requires all local authorities in Wales to set and publish a set of priorities that improve the life of citizens. The Wales Audit Office (WAO) use Well-being Objectives and other data/information to evaluate the Council's annual progress on key performance indicators, measuring the outcomes and impact on the citizens of Caerphilly.

1.2 The report is to update Members on the progress of the two following Well-being Objectives, for the period April 2017 to March 2018, and provide an evaluation of whether the Well-being Objectives are currently being delivered successfully or not:

**Well-being Objective 1 (WO1)** - To help people make the best use of their household income and manage their debts.

**Well-being Objective 3 (WO3)** - Close the gap in life expectancy for residents between the most and least deprived areas in the Borough.

### **2. SUMMARY**

2.1 This report provides an update on the progress of Well-being Objectives 1 and 3 for the period April 2017 to March 2018. The detail and the progress made against individual targets and actions can be found in Appendices A & B.

2.2 Members are asked to note the report and that progress against both Objectives is successful at year end.

### **3. LINKS TO STRATEGY**

3.1 The local Government Measure 2009 requires each authority to publish priorities for improvement.

3.2 The Well-being Objectives support the Single Integrated Plan, Caerphilly Delivers, and in Particular contribute to the Prosperous, Healthier, and Greener Caerphilly themes. The Well-being Objectives also support the Council's Anti-Poverty Strategy.

3.3 The Well-being Objectives contribute to the following Well-being Goals within the Well-being of Future Generations Act (Wales) 2015:

- A resilient Wales
- A prosperous Wales
- A healthier Wales
- A more equal Wales

#### 4. THE REPORT

4.1 The detail of the Well-being Objective action plans and the progress made against individual targets and actions can be found in **Appendix A & B**. Updates on the data/actions have been presented in the report, and have been colour coded to indicate if targets have been met.

4.2 **Well-being Objective 1 (WO1)** – The main outcome of this priority is to introduce policies concerned with boosting households' resources so that Caerphilly residents are able to improve their income levels and are better able to meet their own needs. Poverty harms people's prospects and damages their long term future. It also places a burden on public resources and services. It is in all our interests to tackle poverty. Caerphilly Council is committed to ensuring its residents are able to live fulfilled lives and are not prevented from enjoying an acceptable standard of living due to economic, social or cultural disadvantage.

4.3 The status of Well-being Objective 1 at year end 2017/18 is considered to be **successful**. For more detail please refer to Appendix A. Some of the key points that determine that this objective is partly successful include:

- All of our actions have been completed for the year. Much of this work will be ongoing, but we achieved what we planned to do by the end of the year.
- We visited 1977 Council tenants affected by welfare reform changes and provided them with advice and support in their own homes. We supported 3370 people in total to access benefits they are entitled to, this well above our target.
- We are below target in the number of children accessing childcare places through the Assisted Places Scheme but well above target for the number of children benefiting from Flying Start Childcare provision.
- We are continuing to actively promote take up of Free School Meals, using established media channels and also working with schools and other partners. The information issued highlights the benefits to families and schools of eligible parents/carers completing Free School Meal applications. The uptake of Primary and Secondary School Free School Meals remains consistent.
- The value of financial savings generated for tenants as a direct result of face to face support was £903,508.28.

4.4 **Well-being Objective 3 (WO3)** - The main outcome of this priority is to improve the lifestyles of our local population so that people recognise and take responsibility for their own health and well-being. In turn this will reduce the variation in healthy life expectancy so that health and well-being of individuals experiencing disadvantage improves to the levels found among the advantaged.

4.5 Resources within this arena have been significantly reduced over the past few years. This is impacting on the availability of funds and the capacity to deliver. Welsh Government are phasing out the Communities First programme to establish a new approach to meet the challenges of the future. The new approach will focus on three key areas of employment, early years and empowerment. Caerphilly Communities First are significant planning and delivery partners for this Well-being Objective as well as the Healthier Theme of the Caerphilly Single Integrated Plan.

4.6 The status of Well-being Objective 3 at year end 2017/18 is considered to be **successful**. For more detail please refer to Appendix B. Some of the key points that determine that this objective is partly successful include:

- 3 of our 5 actions are green, the remaining 2 are green.
- The gap in healthy life expectancy has reduced for both male and female residents between the most and least deprived areas in the Borough. The improvement for males is noteworthy.
- Adult smoking rates continue to decline.
- We would like to carry out more test sales of tobacco to young people, but this is dependent on the amount of intelligence reports received.
- The Healthy and Sustainable Pre-School Scheme continues to be very successful with 17 childcare settings having completed the whole scheme
- 98% of schools have achieved the Health Schools accreditation at phase 3.
- Since the launch of the Daily Mile in 2017 more than 50% of our schools have adopted the initiative. This is one of the highest participation rates in Wales.

## **5. WELL-BEING OF FUTURE GENERATIONS**

5.1 These Well-being Objectives contribute to the Well-being Goals as set out in the Well-being Objectives are also consistent with five ways of working set out in the sustainable development principle, as defined in the Act. The Objectives are integrated in that they contribute to a number of the Well-being goals and support the objectives of other stakeholders working towards the same outcomes within the community. Many of the actions depend upon collaboration across organisational boundaries; working together for the good of our communities in pursuit of shared objectives.

5.2 Both Objectives take a long term view with many improvements only demonstrable over a generation. Many interventions also rely on and promote a broad opportunity for involvement, encouraging individuals to take responsibility for their own health and well-being, and financial resilience. Overall, there is a clear emphasis on prevention to secure a sustainable healthy future for our communities and a commitment to ensuring its residents are able to live fulfilled lives and are not prevented from enjoying an acceptable standard of living due to economic, social or cultural disadvantage.

## **6. EQUALITIES IMPLICATIONS**

6.1 There are no equalities implications to this report that have not been considered or would adversely affect any individual or group who fall under one of the protected characteristics or wider issues as shown in the Council's Strategic Equality Plan.

## **7. FINANCIAL IMPLICATIONS**

7.1 There are no direct financial implications associated with this report.

## **8. PERSONNEL IMPLICATIONS**

8.1 There are no personnel implications associated with this report.

## 9. CONSULTATIONS

- 9.1 This report has been sent to the Consultees listed below and all comments received are reflected in this report.

## 10. RECOMMENDATIONS

- 10.1 Members are asked to note the content of the report and the judgement of Well-being Objective 1 and 3 to be **successful** at year end.

## 11. REASONS FOR THE RECOMMENDATIONS

- 11.1 The Council is required to undertake effective scrutiny for setting and monitoring of performance improvement.
- 11.2 To advise members of progress made in meeting the Well-being Objectives and to gain their agreement on the assessment of the year end performance.

## 12. STATUTORY POWER

- 12.1 The Local Government Measure 2009.

Author: Ros Roberts - Corporate Performance Manager, Jo Pearce - Performance Officer
