Q4 WHAT ENGAGEMENT / CONSULTATION / CO-PRODUCTIVE APPROACHES WILL YOU UNDERTAKE? Please provide details below – either of your planned activities or your reasons for not undertaking engagement. (Press F1 for guidance – top row on keyboard)

The RTS itself has been the subject of public consultation. The LDP, into which the recommendations are intended to feed, will be the subject of extensive public and stakeholder consultation and engagement at several stages of the plan preparation process, as defined by statutory regulations and national planning policy/guidance.

Q5(a) HOW VISIBLE IS THIS INITIATIVE TO THE GENERAL PUBLIC?		
High Visibility (High)	Medium Visibility (Medium)	Low Visibility (Low)
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

(b) WHAT IS THE POTENTIAL RISK TO THE COUNCIL'S REPUTATION? (Consider the following impacts – legal, financial, political, media, public perception etc...)		
High Risk (High)	Medium Risk (Medium)	Low Risk (Low)
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Q6 Will this initiative have an impact (however minor) on any other Council service?	
Yes	No
<input type="checkbox"/>	<input checked="" type="checkbox"/>
If Yes, please provide details below	

The RTS itself will not impact on Council services. Its recommendations have the potential to require the LDP to safeguard land/allocate sites for minerals working. However, this is dependent on discussions with other local authorities. The nature of minerals working is such that it will only be permitted outside of, and a certain distance from, existing settlements. Council services that take place in such locations, such as those concerning country parks, will be a factor in any allocation of sites and, as such, there is unlikely to be an impact.

Q7 HOW DID YOU SCORE? <i>Please tick the relevant box</i>	
Q3 counts as one despite the large number of groups – use the highest recorded impact when calculating your score.	
This is not an exact science – a high result might not necessarily result in a full EIA report e.g. it may be governed by other legislation or by Welsh Government, resulting in a lack of control at our end.	
The most important thing is your answer to Q8...	
Mostly <u>HIGH</u> and/or <u>MEDIUM</u> → HIGH PRIORITY →	<input type="checkbox"/>
Mostly <u>LOW</u> → LOW PRIORITY/NOT RELEVANT →	<input checked="" type="checkbox"/>
	EIA to be completed. Please go to Section 2.
	Do not complete EIA. Go to Q8 followed by Section 2.

Q8 If you determine that this initiative is not relevant for an EIA report; you must provide a full explanation here. Please ensure that you cover all of the relevant protected characteristic groups. (Press F1 for guidance – top row on keyboard)

For the reasons given, there is unlikely to be an impact on the provision of Council services. Whilst the RTS does not specify a need for Caerphilly to allocate further minerals sites to fulfil its own requirements, it requires the Council to agree a sub-regional position with neighbouring authorities. The safeguarding of land/allocation of sites for minerals working through the LDP, which is intended to take forward the RTS recommendations, will have to be assessed against a full range of social, economic, environmental and cultural considerations through the integrated sustainability appraisal (ISA) process. ISA specifically incorporates EqIA. As a result, equalities considerations will be fully taken into account as part of the site allocation process through the LDP.
