

SPECIAL COUNCIL - 24TH FEBRUARY 2021

SUBJECT: CAPITAL STRATEGY REPORT 2021/2022

REPORT BY: CORPORATE DIRECTOR FOR EDUCATION AND CORPORATE SERVICES

1. PURPOSE OF REPORT

- 1.1 To submit for approval the Authority's Capital Strategy report for 2021/22 financial year in accordance with the Prudential Code that was introduced by the Local Government Act 2003.
- 1.2 The report cross-references to the report by the Corporate Director of Education and Corporate Services on Revenue and Capital Budgets ["the budget report"]; and the Treasury Management Annual Strategy, Capital Finance Prudential Indicators and Minimum Revenue Provision Policy for 2021/2022.

2. SUMMARY

- 2.1 The Capital Strategy outlines the principles and framework at the very high level that shape the Authority's capital investment proposals. The principal aim is to deliver an affordable programme of capital consistent with the financial strategy that contributes to the achievement of the Council's priorities and objectives as set out in the Authority's Corporate Plan; consider associated risks; recognise financial constraints over the longer term; and represent value for money.
- 2.2 The Strategy defines at the highest level how the capital programme decision making identifies the issues and options that influence capital spending, and sets out how the resources and capital programme will be managed. In addition the Capital Strategy should comply with the Prudential Code for local authority capital investment introduced through the Local Government Act 2003. The key objectives of the Code are to ensure that capital investment plans are affordable, prudent and sustainable.
- 2.3 The Capital Strategy sets out the framework for capital investment decisions. The strategy for funding this investment is underpinned by the Prudential Code for Local Authority investment, which was introduced by The Local Government Act 2003. The Prudential Code has the following key objectives:
 - That capital investment plans are affordable, prudent and sustainable;
 - That treasury management decisions are taken in accordance with good professional practice;
 - That local strategic planning, asset management and proper option appraisal are supported.

3. RECOMMENDATIONS

3.1 That the annual Capital Strategy Report be approved.

4. REASONS FOR THE RECOMMENDATIONS

4.1 The Annual Capital Strategy report is a requirement of the CIPFA's Prudential Code (2017 edition).

4.2 The Prudential Code was first introduced through the Local Government Act 2003. Authorities are required by regulation to have regard to the Prudential Code when carrying out their duties in England and Wales under Part 1 of the Local Government Act 2003.

5. THE REPORT

5.1 Corporate Priorities

5.1.1 Underlying the capital strategy is the recognition that the financial resources available to meet corporate and departmental priorities are constrained in the current economic climate. Therefore the Authority must rely more on internal resources and seek ways in which investment decisions can be no less than self-sustaining or generate positive returns both in terms of meeting corporate objectives and producing revenue savings.

5.1.2 The Authority's corporate priorities and well-being objectives are set out in its Corporate Plan, which is published on the Council's website:

[Link to Council's Corporate Plan 2018-2023](#)

5.2 Capital Expenditure and Financing

5.2.1 Capital expenditure is defined as costs incurred by the Authority in acquiring new property, plant and equipment (PPE); or costs incurred by enhancing the existing PPE asset base. Capital expenditure can also be incurred in instances where the asset is owned by a third party but the Authority has provided the third party with a loan or grant. In such instances the expenditure is recorded as if incurred directly by the Authority.

5.2.2 In accordance with accounting definitions, expenditure can be capitalised when it relates to:

- The acquisition or creation of a new fixed asset - capitalisation will depend on the creation of rights to future economic benefits controlled by the Authority;
- The enhancement of an existing fixed asset - capitalisation will depend on the works substantially increasing the value of the asset, extending its useful life or increasing its use in service provision.

5.2.3 The Authority has a de-minimus limit for capital expenditure of £10,000. Capital expenditure that is below this de-minimus limit, irrespective of meeting the definition set out in paragraph 5.2.2, is charged to a revenue budget with the exception being the purchase of vehicles which are always capitalised.

5.2.4 The Authority's core capital programme is approved by Council annually as part of the Budget Report, and is funded from the General Capital Grant and Supported Borrowing Approvals. Both of these funding streams are confirmed annually by Welsh government as part of the Local Government Finance Settlement.

5.2.5 The Authority's three year core capital programme from 2021/22 is summarised below:

	2020/21 Approved Budget	2021/22 budget	2022/23 budget	2023/24 budget
	£000s	£000s	£000s	£000s
Council Fund	11,363	11,349	9,726	9,726
Housing Revenue Account	36,000	35,200	35,800	37,600
TOTAL	47,363	46,549	45,526	47,326

Table 1: Prudential Indicator: Estimates of Capital Expenditure

5.2.6 Further details of the 2021/22 – 2023/24 core capital programme and the funding of the programme can be found in the Budget Report.

5.2.7 In addition to the core capital budget that is approved by Full Council, the Authority's capital programme is also funded from slippage (previous years unspent capital budget that is carried forward); external grants and contributions; section 106 funding; and virement of revenue budgets (revenue contribution to capital outlay {RCCO}).

5.2.8 The Housing Revenue Account (HRA) is a ring-fenced account which ensures that council housing does not get subsidised, or is itself subsidised, by other local services. HRA capital expenditure is therefore recorded separately and includes building 400 affordable homes over the next 5 years, achieving the Welsh Quality Housing Standard (WHQS) on existing Council Stock which is due to be completed by December 2021 and the implementation of the Post Asset Management Programme which is designed to maintain the Council Housing Stock to the WHQS standard over the next 30 years.

5.2.9 **Governance:** the core capital budget is approved annually by Full Council as part of the revenue budget setting process. All other capital projects / capital works that do not form part of the core capital programme will require a cabinet report prior to commencement of the capital scheme. Capital projects / works that require to be funded by prudential borrowing will need a decision by full Council. The Cabinet report will need to include the following:

- A link to Corporate Priorities and how the capital project would seek to fulfil such priorities;
- Full option appraisal of the project to demonstrate value for money;
- That capital investment plans are affordable, prudent and sustainable;
- Where prudential borrowing is considered that treasury management decisions are taken in accordance with good professional practice;
- That local strategic planning and asset management plans are supported.

5.2.10 All capital expenditure must be financed, either from external sources (government grants and other contributions); the Authority's own resources (revenue contribution, reserves and capital receipts); or debt (borrowing {supported and unsupported}; leasing; and Private Finance Initiative).

- 5.2.11 Debt (including leases) is a source of finance that can be used to fund a capital scheme. However, debt is repayable over time. The Authority sets aside a Minimum Revenue Provision (MRP) every year for the repayment of existing debt. MRP forms part of the debt management budget and is monitored by Corporate Finance. As part of the annual Treasury Management Strategy, which is approved by Full Council in February (along with the Revenue Budget and the Capital Programme), a MRP statement is presented as an appendix to the Strategy annually, and sets out the MRP Policy that is to be adopted by the Authority at the start of the new financial year. The full MRP statement is set out in Appendix 8 of the Treasury Management Annual Strategy.
- 5.2.12 The Authority's cumulative outstanding amount of debt finance is measured by the capital financing requirement (CFR). This increases with new debt-financed capital expenditure and reduces with MRP and capital receipts used to replace debt. The Authority's estimated CFR is set out in Appendix 6 of the Treasury Management Annual Strategy.

5.3 Asset management

5.3.1 Asset management is about using assets (property, plant & equipment) to deliver value and achieve the organisation's business objectives. To ensure that capital assets continue to be of long-term use, the Authority has an asset management strategy in place.

5.3.2 The Authority's asset management strategy can be found on its website:

[Link to Council's Asset Management Strategy](#)

5.3.3 As at 31st March 2020 the Authority's fixed assets (property, plant and equipment) had a net book value of £1,158m. The net book valuation is an accounting valuation, which does not translate to market value. Further details can be found in Note 22 to the Authority's 2019/20 Statement of Accounts:

[Link to Council's Statement of Accounts](#)

5.3.4 **Asset disposals:** When a capital asset is no longer needed, it may be sold so that the proceeds, known as capital receipts, can be spent on acquiring new assets; enhancing the existing asset base; or to repay debt.

5.3.5 Whilst the Authority is intending to dispose of land and building in the future, a change in the law means that any future sale proceeds will need to take in to affect a drainage assessment. This has arisen as a result of the Welsh Minister for Environment signing off a Commencement Order that brings Schedule 3 of the Flood and Water Management Act 2010 into force in Wales.

5.3.6 Since 7th January 2019, all proposed new developments in Wales must include Sustainable Drainage Systems (SuDS). These must comply with the Welsh Ministers' Standards and signed off by the SuDS Approving Body (SAB). The current voluntary standards will become mandatory at the same time. SuDS aim to manage rainfall in a way similar to natural processes, making use of the landscape and natural vegetation to control the flow and volume of surface water. SuDS can deliver multiple benefits including:

- flood risk reduction;
- improved water quality;
- opportunities for habitat creation;
- enhanced biodiversity;
- supporting well-being through bringing people closer to green and blue community spaces.

5.3.7 Each site could have a different SuDS solution, which depends on the site specifics and topography. Each scheme would need to be considered by the authority at the planning stage

and for the SuDS to be approved and adopted. Since the SuDS are site specific it is not possible to forecast a receipt with any degree of accuracy.

5.3.8 **Capital receipts:** As of 1st April 2018, Welsh Government issued a capitalisation directive that allows Welsh Authorities to use capital receipts to fund revenue expenditure incurred as a result of transforming service delivery; cutting back services to generate savings; or investing in economic growth projects that are designed to reduce revenue costs or pressures over time. The use of capital receipts to fund such expenditure is permitted until 31 March 2022.

5.3.9 A summary of the Capitalisation Directive issued by the Welsh Government that the Authority can adopt for the Flexible Use of Capital Receipts is detailed in Appendix 1. At present there are no plans to utilise the current capital receipts reserve to fund transformation expenditure.

5.3.10 **Governance:** If in the future the Authority decided to utilise the Capital Receipts Directive to fund revenue expenditure a Cabinet decision will be required. The cabinet report will need to demonstrate:

- A robust business case with a full option appraisal;
- Identification of actual capital receipts received that are uncommitted;
- An analysis of what the capital receipt could have been used for;
- Value for money.

5.4 Treasury Management

5.4.1 The Chartered Institute of Public Finance & Accountancy defines treasury management as “The management of the organisation’s borrowing; investments and cash flows; its banking; money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks”.

5.4.2 Surplus cash is invested until required, while a shortage of cash will be met by borrowing, to avoid excessive credit balances or overdrafts in the bank current account. Investment balances tend to be high at the start of the financial year as revenue income is received before it is spent, but reduce in the long-term as capital expenditure is incurred before being financed.

5.4.3 Due to decisions taken in the past, the Authority currently has £301.6m nominal debt outstanding as at 31 March 2020, at an average interest rate of 4.51% and £107.4m nominal treasury investments at an average rate of 0.68%.

5.4.4 The Annual Treasury Management Strategy is approved by Full Council every February, and sets out the Authority’s Borrowing Strategy; Investment Strategy; and respective prudential indicators.

5.5 Investments for Service Purposes

5.5.1 The Authority provides capital grants to local businesses and the voluntary sector for the purpose of economic regeneration (Caerphilly Enterprise Fund – 2020/21 capital budget of £148k). Such grants are awarded on application and criteria basis.

5.5.2 **Governance:** Decisions to award local businesses and the voluntary sector capital grants are undertaken by the relevant service manager in consultation with the Head of Service. The Caerphilly Enterprise Fund grant applications are assessed by the Business Enterprise Renewal Team, the Cabinet Member for Economy and Enterprise and a Grant Officer from Finance. The final decision to award is undertaken by the Head of Regeneration and Planning. In either case the award decision is posted on the intranet.

5.5.3 The decision to make a loan or to purchase share capital will be referred to the Head of Finance, who will in turn make a recommendation to Cabinet and Full Council once an appraisal exercise

has been undertaken. The decision to award will need to be funded from the capital programme and will be subject to a robust business case in the first instance.

5.6 **Commercial Activities**

- 5.6.1 A number of local authorities in England are investing in commercial property, either via a fund manager or direct purchase of property in order to generate enhanced treasury returns above the rate of inflation. The returns generated from this type of investments are supporting revenue budgets in an environment when central government revenue support funding is declining year on year.
- 5.6.2 At present the Authority does not invest in commercial property either directly (through property acquisitions) or indirectly (through a fund manager). However, the Authority would like to keep its options open for future investment in property and other commercial investments.
- 5.6.3 In the event of the Authority purchasing a commercial investment, the Authority may seek to finance the purchase through borrowing, (for debt to yield purchases the Authority will not be able to borrow from the PWLB). In any such case arising the Authority will prepare a detail report for Council that includes a full option appraisal and risk assessment of the investment. The report will highlight the rationale for the commercial investment.
- 5.6.4 With financial return being the main objective, the Authority accepts higher risk on commercial investment than with treasury investments. The principal risk exposures include a decline in the property market; volatility in the capital value of property; capital being tied up in the medium/long-term horizon and active management of properties when purchased directly rather than purchasing the property through a fund manager.
- 5.6.5 In recognition of the risks stipulated in the above paragraph, the Authority will adopt a policy whereby 50% of the annual income generated will be ring fenced in an earmarked reserve to offset in any fall in capital values or capital income; or fund any other associated cost. The remaining 50% of the annual income generated will be made available to the Authority to support frontline services and enabling the Authority to achieve a balanced budget. Periodic reviews will take place at least once a year to review this policy. The Head of Corporate Finance would recommend changes to the policy, if appropriate, at any time by way of a report to Cabinet.
- 5.6.6 **Governance:** Treasury management decisions on commercial investments are made in accordance with the approved Treasury management Strategy. Non treasury investments will be referred to the Head of Finance and the Corporate Management Team to consider with further referral to Cabinet and Full Council for the final decision. Monitoring of the commercial investments (treasury management related) will be included within the treasury management monitoring reports (or other Council reports) that are presented to the Policy and Resources Committee. Non-treasury management commercial investments will be reported separately by the Head of Corporate Finance.
- 5.6.7 The Authority will seek expert independent and external advice whenever a commercial investment opportunity arises prior to investing. Legal advice will also be sought from within the Authority, and where necessary externally.

5.7 **Revenue Budget Implications**

- 5.7.1 Although capital expenditure is not charged directly to the revenue budget, interest payable on loans and MRP repayments are charged to revenue, offset by any investment income receivable. The net annual charge is known as financing costs; this is compared to the net revenue stream i.e. the amount funded from Council Tax, business rates and general government grants.

- 5.7.2 Further details on the revenue implications of capital expenditure are set in Appendix 6 of the Treasury Management Annual Strategy, Capital Finance Prudential Indicators and Minimum Revenue Provision Policy for 2021/2022 report.
- 5.7.3 **Sustainability:** Due to very long-term nature of capital expenditure and financing, the revenue budget implications of expenditure incurred in the next few years will extend for up to 50 years.

5.8 Knowledge and Skills

- 5.8.1 The Council employs professionally qualified and experienced staff in senior positions with responsibility for making capital expenditure, borrowing and investment decisions.
- 5.8.2 Where Council staff do not have the knowledge and skills required, use is made of external advisers and consultants that are specialists in their field. The Authority currently employs Arlingclose Limited as treasury management advisers. This approach is more cost effective than employing such staff directly, and ensures that the Authority has access to knowledge and skills commensurate with its risk appetite.
- 5.8.3 The Council will employ, where necessary, consultants and other professional experts to advise upon technical issues relating to non-treasury management commercial investments.
- 5.8.4 **Training:** Key relevant staff will undertake training as and when opportunities arise or whenever there are changes in regulations. The contract for Treasury Consultancy Services includes requirements for Member and Officer training to be provided during any year. Officers will look to schedule treasury management training for Members for autumn 2021. Further Member training will be undertaken as and when required.

6. ASSUMPTIONS

- 6.1 The details set out in the report are based on information collected from Heads of Service for the delivery of capital works.
- 6.2 It has been assumed that the Authority will fund a proportion of its capital programme through supported borrowing.
- 6.3 It has been assumed that the HRA's borrowing needs are based on the current Business Plan at the time of writing this report.

7. LINKS TO STRATEGY

- 7.1 The report has links to the strategic themes of the Authority, taking into account cross-cutting issues where relevant. It has specific links to the following documents:

a) Medium Term Financial Plan

The Capital Strategy is closely linked to the Medium Term Financial Plan (MTFP), primarily with respect to the affordability of the capital programme.

b) Treasury Management Strategy

The Treasury Management Strategy links to the Capital Strategy in determining the Authority's approach to borrowing and investments, including borrowing to fund capital expenditure. The Treasury Management Strategy is closely related to the Prudential Code and Prudential Indicators.

The Authority has an integrated Treasury Management Strategy, and has adopted the CIPFA Code of Practice for Treasury Management in Public Services. The Treasury Management Strategy deals with borrowing and investment arising as a consequence of all the financial transactions of the authority, not exclusively those arising from capital spending.

c) Statement of Accounts

Capital expenditure incurred during the year is reflected in the Balance Sheet of the Statement of Accounts ensuring stewardship of assets is demonstrated. The accurate monitoring and recording of capital expenditure ensures that this document is free from material error. The Statement of Accounts is externally audited at the end of each financial year to certify that it presents a true and fair view of the financial position of the Authority.

d) Regulatory Framework of Capital Spend

The Procurement Strategy, along with the Contract Standing Orders and Financial Regulations, looks at who can be used to supply goods and services to the Authority, and how these goods and services should best be obtained to secure value for money.

7.2 Prudent financial management contributes to the following Well-being Goals within the Well-being of Future Generations Act (Wales) 2015:-

- A prosperous Wales.
- A resilient Wales.
- A healthier Wales.
- A more equal Wales.
- A Wales of cohesive communities.
- A Wales of vibrant culture and thriving Welsh Language.
- A globally responsible Wales.

8. WELL-BEING OF FUTURE GENERATIONS

8.1 The establishment of a capital strategy is a key element of effective financial management and risk management of the Authority's resources, which assists the achievement of the Well-being Goals within the Well-being of Future Generations Act (Wales) 2015.

9. EQUALITIES IMPLICATIONS

9.1 There are no potential equalities implications of this report and its recommendations on groups or individuals who fall under the categories identified in the Council's Strategic Equality Plan. There is no requirement for an Equalities Impact Assessment Questionnaire to be completed for this report.

10. FINANCIAL IMPLICATIONS

10.1 There are no financial implications arising from this report.

11. PERSONNEL IMPLICATIONS

11.1 There are no personnel implications.

12. CONSULTATION

- 12.1 The report was presented to the Policy and Resources Scrutiny Committee on the 12th January 2021 for their comment as part of the consultation process. The Scrutiny Committee made the following comments and recommendation to Council: -

One Member wished to know if capital receipts had been used to fund expenditure incurred as a result of transforming service delivery, as per a Welsh Government directive allowing this avenue of funding. The Head of Financial Services and S151 Officer advised that the Council had not made use of this capitalisation directive because it was the intention to use capital receipts to fund the Place Shaping strategy and other investment proposals that will be shared with Members. The Member also asked about the use of the Caerphilly Enterprise Fund, officers advised that the fund had been fully utilised through grants to local businesses and was administered by the Business Renewal Team.

Following consideration and discussion the Policy and Resources Scrutiny Committee by a majority present, and in noting in that there were no abstentions and no votes against, RECOMMENDED to Council that the annual Capital Strategy Report 2021/22 be approved.

- 12.2 No external consultation is required for the purposes of the report. However, advice has been sought from the Authority's current Treasury Management Adviser.

13. STATUTORY POWER

- 13.1 Local Government Act 1972

Author: Rhiann Williams – Group Accountant -Treasury Management & Capital

Consultees: Policy and Resources Scrutiny Committee
Corporate Management Team (CMT)
Stephen Harris – Head of Financial Services & Deputy S151 Officer
Andrew Southcombe – Finance Manager, Corporate Finance
Robert Tranter- Head of Legal Services & monitoring Officer
Cllr E. Stenner – Cabinet Member for Finance, Performance & Planning

Appendix 1: Flexible Use of Capital Receipts Policy

Appendix 1: Flexible Use of Capital Receipts Policy

Legislation

- The Local Government Act 2003 (“the Act”), section 15(1) requires a local authority “...to have regard (a) to such guidance as the Secretary of State may issue, and (b) to such other guidance as the Secretary of State may by regulations specify...”. and section 24 of the Act states “In its application to Wales, ...for any reference to the Secretary of State there were substituted a reference to the Welsh Ministers.”
- In December 2017, the Secretary of State announced, the continuation of the capital receipts flexibility programme for a further three years, to give local authorities in England the continued freedom to use capital receipts from the sale of their own asset (excluding Right to Buy receipts) to help fund the revenue costs of transformation projects and release savings. These powers have been exercised under sections 16(2)(b) and 20 of the Local Government Act 2003 (the Act). This will cover expenditure incurred from 1st April 2016 up to 31 March 2022, and relates to expenditure incurred as a result of service transformation that reduces costs and generate savings.
- In Further exercise of Welsh Minister’s powers under section 20 of the Act, the continuation of the capital receipts flexibility programme will also be extended to Welsh local authorities within the meaning of section 9 of the Act and regulations made under that section (part 3 SI 2003/3239{W319}).

Application

- The direction makes it clear that local authorities cannot borrow to finance the revenue costs of service reform. Local authorities can only use capital receipts from the disposal of property plant and equipment assets received in the years in which this flexibility is offered.
- Capital receipts generated from the sale of Council houses Right to Buy scheme are excluded.
- Welsh Ministers believe that individual authorities and groups of authorities are best placed to decide which projects will be most effective for their areas. The key criterion to use when deciding whether expenditure can be funded by the capital receipts flexibility is that it is forecast to generate ongoing savings or reduce revenue costs or pressures over the longer term to an authority, or several authorities, and/or to another public body.
- The Capitalisation Directive for the Flexible Use of Capital receipts applies from 1st April 2016 to 31st March 2022.

Accountability & Transparency

- A disclosure note will be included in the Statement of Accounts in the relevant year detailing the individual projects that have been funded or part funded through capital receipts flexibility.
- As a minimum, the disclosure note should list each project that made use of the capital receipts flexibility, ensuring that it details the split of up-front funding for each project between capital receipts and other sources, and that on a project-by-project basis, setting out the expected savings and/or benefits of investment.

Qualifying Expenditure

- Qualifying expenditure is expenditure on any project that is designed to generate ongoing revenue savings in the delivery of public services and/or transform service delivery in a way that reduces costs or demand for services in future years for the Authority or any of the delivery partners. This includes investment which supports economic growth projects which are also designed to reduce revenue costs or pressures over the longer term.
- The set up and implementation costs of any new processes or arrangements can be classified as qualifying expenditure. The ongoing revenue costs of the new processes or arrangements cannot be classified as qualifying expenditure.

Examples of Qualifying Expenditure

- There are a wide range of projects that could generate qualifying expenditure and the list below is not prescriptive. Examples of projects include:
 - Preparatory work necessary to support local authority mergers as part of the programme to reform local government in Wales;
 - Sharing back-office and administrative services with one or more other council or public sector body;
 - Investment in service reform feasibility work, e.g. setting up pilot schemes;
 - Collaboration between local authorities and central government to free up land for economic use;
 - Funding the cost of service reconfiguration, restructuring or rationalisation (staff or non-staff), where this leads to ongoing efficiency savings or service transformation;
 - Sharing Chief Executives, management teams or staffing structures;
 - Driving a digital approach to the delivery of more efficient public services and how the public interacts with constituent authorities where possible;
 - Aggregating procurement on common goods and services where possible, either as part of local arrangements or using the National Procurement Service, Crown Commercial Services or other central purchasing bodies which operate in accordance with the Wales Procurement Policy Statement;
 - Improving systems and processes to tackle fraud and corruption in line with the Local Government Fraud and Corruption Strategy – this could include an element of staff training;
 - Setting up alternative delivery models to deliver services more efficiently and bring in revenue (for example, through selling services to others); and
 - Integrating public facing services across two or more public sector bodies (for example children's social care, trading standards) to generate savings or to transform service delivery.
 - Investment which supports economic growth projects which are also designed to reduce revenue costs or pressures over the longer term, across one or more local authorities and/or other public sector bodies.
