

COUNCIL – 2ND MARCH 2021

**SUBJECT: CAERPHILLY WELLBEING AND PLACE SHAPING
FRAMEWORK**

REPORT BY: CHIEF EXECUTIVE

1. PURPOSE OF THE REPORT

- 1.1 Council is asked to note the content of this report which was presented to Joint Scrutiny Committee on 22nd February and Cabinet on 24th February. At its meeting Cabinet considered the views of the Scrutiny Committee and endorsed the recommendations at para 3.1 of this report.
- 1.2 The purpose of this report is to update Cabinet on some of the significant capital investments made over recent years across the Council's wellbeing objectives and to propose a suite of projects that will form the basis of a county borough wide Wellbeing and Place Shaping Framework.
- 1.2 The report also sets out a proposed community engagement mechanism that enables key stakeholders to have the opportunity to shape and refine the Wellbeing and Place Shaping Framework over future years.

2. SUMMARY

- 2.1 The Council has been developing a Wellbeing and Place Shaping Framework since the spring of 2020. The Framework has been built on the wide range of capital investments made across the county borough in recent years and has been developed to take into consideration:
 - Existing long standing multi-annual investment programmes
 - Emerging and existing funding and investment opportunities
 - Corporate Plan priorities and objectives
 - Previously identified need
 - Collaborative project opportunities
 - Emerging Commercial opportunities
 - The Council's Strategic Recovery Framework
- 2.2 The draft Wellbeing and Place Shaping Framework set out in 5.8 contains a list of potential investments across Caerphilly in excess of £231m that align explicitly with the Council's adopted Wellbeing Objectives.
- 2.3 This investment framework provides the opportunity to build, repair and renew key

infrastructure and assets across the length and breadth of Caerphilly county borough, as well as explicitly further the aims and policy direction previously set within strategies such as the Council's Corporate plan, the Sport and Active Recreation Strategy (SARS), the Council's Regeneration Strategy "A Foundation for Success 2018-2023" as well as the exciting proposals set out within the 21st Century Schools Band B Programme.

- 2.4 This framework proposal is of paramount importance at this time, as it offers an important element of the Council's Covid recovery plan, which aims to support our communities as they begin to emerge from the Covid pandemic. Long-term investments in infrastructure such as that proposed within this Framework, hold the potential to rebalance the local economy, enhance productivity and create jobs and opportunities across Caerphilly, which is of great importance as we support our communities to rebuild a sustainable and resilient future post Covid. The opportunity exists to work together to create a better and more prosperous Caerphilly for everyone, further embedding our "TeamCaerphilly" collective community and civic leadership model of delivery.
- 2.5 The projects and ideas within the Framework will need to be developed into propositions that will be shaped through community engagement and scrutiny prior to any decision to implement being reached.
- 2.6 In many cases, the investment to support these projects will be a combination of internal capital and external grant, with the latter also being subject to relevant external approval processes.
- 2.7 The ongoing engagement programme described in 5.9 has been designed explicitly to ensure the Framework is continuously refined over coming years with opportunities for future Wellbeing and Place Shaping proposals to be added in and considered as they emerge.

3. RECOMMENDATIONS

- 3.1 Council is asked to note the report and the recommendations set out below which were endorsed by Cabinet on 24th February 2021:
 - a) Consider any views and recommendations made at the meeting of all Scrutiny Committees on the 22nd February.
 - b) Note the Wellbeing and Place Shaping investments, totalling in excess of £153m that have been undertaken between 2017 and 2020 as set out in 5.6
 - c) Note the Wellbeing and Place Shaping investments currently approved totalling over £129m for delivery as set out in 5.7
 - d) Agree that the projects set out in 5.8 totalling in excess of £231m will form the initial Wellbeing and Place Shaping Framework for the Council from 2021 onwards, forming a sustainable and resilient route-map for our communities to emerge stronger from the Covid pandemic
 - e) Agree that the projects set out within 5.8 can be developed into business cases for consideration
 - f) Acknowledge that each proposal must go through the relevant consultation,

scrutiny, funding approval and decision-making processes before implementation

- g) Agree the proposed mechanisms for community engagement set out within 5.9
- h) Note the funding approvals totalling £28.591m that have already been confirmed for the Place Shaping Framework as set out in Section 10 of the report.
- i) Approve a recommendation that funding of £1.640m held in the 2020/21 Miscellaneous Finance Revenue Contribution to Capital Outlay (RCCO) budget should also be allocated to the Place Shaping Framework, which would increase the total funding available to £30.231m.
- j) Agree that a Joint Meeting of all Scrutiny Committees be held twice yearly to consider the progress of the Wellbeing and Place Shaping Framework.
- k) Agree to receive a separate report on the Community Empowerment Fund that will detail the mechanisms by which Elected Members can, alongside their communities, develop project ideas for consideration within the Framework.

4. REASONS FOR THE RECOMMENDATIONS

- 4.1 For Council to note a potential Framework of Wellbeing and Place Shaping investment across the county borough for the period 2021 onwards, subject to the necessary business cases being developed, consulted upon and agreed by the relevant decision-making body.

5. THE REPORT

- 5.1 Place Shaping is about creating Communities that are great places to live now, as well as having the potential to thrive in the future. As we emerge from the Covid pandemic, it is essential that we provide a route-map for our communities which offers a sustainable and resilient future for them. Within this context, it is imperative we understand the needs and challenges of our constituent communities, the impact of the investments and interventions made to date and those required in the years ahead, coupled with a detailed understanding of what makes a community unique is the foundation of any Place Shaping approach.
- 5.2 Investment in Wellbeing and Place Shaping projects should be designed to directly strengthen the fabric of our communities by improving key aspects of life across Caerphilly. This report sets out a range of such investments, both in the recent past and over the years ahead, that are intended to collectively improve the lives of those that live within the County Borough.
- 5.3 The Wellbeing and Place Shaping projects that form the basis of this report will involve a combination of funding approaches. Some projects will be funded directly by Council capital, some will be a combination of Council capital and external funding alongside and some being wholly funded externally. In each case, the Council will play a pivotal role in the development of the idea and the acquisition of the investment.
- 5.4 Multi-million pound programmes designed to improve the quality of our school buildings, bring Council Houses up to the Welsh Housing Quality Standard, improve the highway infrastructure of the County Borough, enhance the opportunities to lead a healthy lifestyle and create new and enhanced opportunities for businesses to thrive all feature within this programme.

5.5 Caerphilly's Wellbeing Objectives

In 2018, Council adopted a Corporate Plan which included six wellbeing objectives. The wellbeing objectives were set using intelligence and data from the Wellbeing Assessment that was carried out to inform the Public Service Board's Wellbeing Plan. This exercise captured directly the concerns of our residents and the areas that they would like to see improved.

The wellbeing objectives cover the period 2018-2023 and are as follows:

- **Wellbeing Objective 1** – Improve education opportunities for all
- **Wellbeing Objective 2** – Enabling employment
- **Wellbeing Objective 3** – Address the supply, condition and sustainability of homes throughout the county borough and provide advice, assistance or support to help improve people's health and wellbeing
- **Wellbeing Objective 4** – Promote a modern, integrated and sustainable transport system that increases opportunity, promotes prosperity and minimises the adverse impacts on the environment
- **Wellbeing Objective 5** – Creating a County Borough that supports a Healthy Lifestyle in accordance with the Sustainable Development Principle within the Wellbeing of Future Generations (Wales) Act 2015
- **Wellbeing Objective 6** – Support citizens to remain independent and improve their wellbeing

5.6 Wellbeing and Place Shaping Investment 2017-2020

During the period 2017-2020, the Council was able to facilitate investment totalling in excess of £153m across its communities and the six wellbeing objectives. Some of the most significant of these schemes, with investments exceeding £100k, are summarised by wellbeing objective in the table below.

WB06	£	Example Investments
	0.154m	Caerphilly Leisure Centre Health Suite Upgrades
	0.120m	Extension Hafod Deg Rhymney

Many of these capital investments also bring with them wider benefits than the creation of the new asset itself. Taking the development of the new primary phase at Idris

Davies 3-18 as an example, the following benefits have also been identified beyond the £8m capital investment in the school building:

- 98% of the build workforce were from Wales
- 76% of project spend was within Wales
- 82% of the build sub-contractors were Welsh
- 100% were SMEs
- 233 weeks of employment were created (13 people in total) during the build
- 132 weeks training provided

Taking the wider socio-economic benefits of this nature into consideration, many of which are in the Councils gift to deliver, the level of investment outlined in section 5.7 and 5.8 below should be seen only as a baseline for the development of wider community or social benefits.

5.7 Wellbeing and Place Shaping Investment 2020-2023 (With Approval)

During the period 2020-2023, a significant amount of further investment is being made across Caerphilly. So far, project approvals have been received totalling over £129m across the six wellbeing objectives. The most significant of these projects are summarised in the table below.

5.8 Proposed Wellbeing and Place Shaping Investment 2020-onwards

During the period 2020-2023 and beyond, the Council wishes to develop and implement a Wellbeing and Place Shaping Framework that builds on the investment made to date and seeks to help Caerphilly's communities become great places to live now, as well as having the potential to thrive in the future, as they emerge from the Covid pandemic.

The draft Wellbeing and Place Shaping Framework summarised below includes a wide range of projects that could, should they prove acceptable to the relevant decision-

making body, deliver significant further investments and a range of enhanced facilities across the communities of Caerphilly.

The draft Framework has been developed through consultation with Heads of Service, Corporate Management Team and Cabinet and has also been shaped through the insight generated by the Caerphilly Conversation Questionnaire.

It should be noted that these projects are currently only proposals at present. The development and progression of each project will be subject to relevant consultation and engagement; where necessary the development and scrutiny of robust business cases, and the necessary financial investment being in place and having received approval. There may also be occasions where planning permission will also be required prior to a project developing.

The Framework as a whole will form part of an ongoing engagement programme with the communities of Caerphilly that will provide stakeholders with the potential to add in further projects, as well as refine or remove projects that already exist within the Framework.

Should the proposed projects below ultimately be taken forward, investment in excess of £231m will be forthcoming into the county borough which will support a wide range of enhancements across all six wellbeing objectives.

5.9 Ongoing Place Shaping Engagement Programme

The Place Shaping Engagement Programme will build upon the principles within the council's Consultation and Engagement Framework and the draft projects and ideas set out within section 5.8.

The principles of the Consultation and Engagement Framework were endorsed by Cabinet in February 2020 and include:

- Empowering our residents to have greater influence over the issues that affect them
- Increasing and strengthening the role of communities in how we live, work and visit Caerphilly county borough
- Helping us to understand the needs of our communities, which in turn, will help to ensure the services we deliver meet those needs, and that available resources are used effectively and in line with agreed priorities
- Supporting communities to take action, by helping them identify needs and support them in developing community led solutions.

The council has recently conducted a comprehensive resident survey entitled 'The Caerphilly Conversation'. The Caerphilly Conversation sought views on a wide range of areas including satisfaction with council services, our collective response to the COVID-19 pandemic and views on areas such as education, housing, the local economy and climate change. The findings from that consultation exercise are a very useful contributor to the emerging Wellbeing and Place Shaping Framework which is framed in section 5.8.

Caerphilly – 'A Place for Everyone'

The Place Shaping Engagement Programme – 'A Place for Everyone' will build upon the stakeholder engagement carried out to date and will focus on developing strengthened, ongoing relationships between our residents and public services – to help forge a greater understanding of community needs and aspirations for the future.

The programme will seek to develop a shared vision for the type of place our residents want to live in and the collective role that everyone has to play in achieving this.

The following will be key components of the programme:

- Ongoing training and development for councillors and key council staff around community involvement and co-production of services
- Making optimum use of the council's existing network of staff who have regular, ongoing trusted dialogue with residents
- Mapping of community assets at individual ward level to build upon the council's existing consultation/engagement network– particularly focussing on hard to reach groups
- Ongoing community and council led projects badged as 'Team Caerphilly in Action' which aim to encourage ongoing dialogue, provide feedback and further build community capacity

- The opportunity to use the enhanced stakeholder mapping to gather regular insights on key service areas – including education, regeneration and quality of life issues.
- Regular ‘pulse checking’ residents surveys to ensure the Council is delivering on its key objectives and highlighting opportunities to refine its approaches.
- A cyclical programme of councillor and officer led community engagement, at individual council ward level. The discussions will focus initially on a number of areas and will take place across a number of platforms. These will include:
 - community pride
 - identity
 - community need
 - identification of gaps
 - what is important to our communities in living full and prosperous lives

As part of this cyclical programme, existing projects can be considered and potentially refined while also providing the platform for additional project ideas to be added into the Framework.

This ongoing approach to community engagement is not intended to replace individual, formal consultation processes specific to particular projects or schemes; rather it is intended to facilitate solid, ongoing, long-term dialogue with our communities where relationships are valued and trust earned, and will support those more formal consultation and engagement processes as required.

5.10 Conclusion

Over the paragraphs above, investment in excess of £485m has been outlined. Some of this has been made over prior years, but a significant proportion can be used to shape Caerphilly’s future over coming years.

The Wellbeing and Place Shaping proposals set out within 5.8 provide the makings of a significant investment into the future of the county borough from an economic, social and environmental perspective and the engagement programme set out from section 5.9 onwards sets out the mechanism by which key stakeholders can directly shape the programme with the Council as it is developed. This provides an essential route-map for our communities to build a resilient and sustainable future as they emerge from the Covid pandemic.

Should Cabinet agree the Wellbeing and Place Shaping Framework set out within 5.8 it will be agreeing to invest significantly in its communities, at a key moment in the recovery of our communities from the impacts of the COVID-19 pandemic.

The potential benefits the Framework can provide in developing, improving and refreshing infrastructure and assets from across Caerphilly should not be underestimated. Sustained investment of this size and scale can help strengthen the local economy, increase community resilience and bring jobs and opportunities.

6. **ASSUMPTIONS**

- 6.1 It is assumed that the current and future economic landscape will be sufficiently viable for the projects proposed within section 5.8 to be progressed.
- 6.2 Should specific projects ultimately prove unviable, it is assumed that it would be possible to divert the funding in support of other Place Shaping projects.
- 6.3 The delivery of the Wellbeing and Place Shaping Framework at pace and scale is critical and its success will be limited without the additional senior management and project management capacity referenced in section 11.

7. LINKS TO RELEVANT COUNCIL POLICIES

- 7.1 Caerphilly's Wellbeing Objectives 2018 to 2023. This proposal will assist the Council in meeting all six of its stated wellbeing objectives:

- **Wellbeing Objective 1** – Improve education opportunities for all
- **Wellbeing Objective 2** – Enabling employment
- **Wellbeing Objective 3** – Address the supply, condition and sustainability of homes throughout the county borough and provide advice, assistance or support to help improve people's health and wellbeing
- **Wellbeing Objective 4** – Promote a modern, integrated and sustainable transport system that increases opportunity, promotes prosperity and minimises the adverse impacts on the environment
- **Wellbeing Objective 5** – Creating a County Borough that supports a Healthy Lifestyle in accordance with the Sustainable Development Principle within the Wellbeing of Future Generations (Wales) Act 2015
- **Wellbeing Objective 6** – Support citizens to remain independent and improve their wellbeing

- 7.2 The Wellbeing and Place Shaping Framework also aligns specifically with the Council's:

- Team Caerphilly – Better Together
- Sport and Active Recreation Strategy 2019-2029
- 21st Century Schools Band B Programme 2019-2026
- Shared Ambitions Strategy 2019-2022
- Social Services and Well-being (Wales) Act 2014
- A Foundation for Success 2018-2023
- SE Wales Valleys Local Transport Plan 2015
- Covid Strategic Recovery Framework 2020
- Communications and Engagement Strategy 2019-2022

8. WELLBEING OF FUTURE GENERATIONS

- 8.1 The Wellbeing of Future Generation (Wales) Act 2015 is about improving the social, economic, environmental and cultural wellbeing of Wales. It requires public bodies to think more about the long-term, working with people and communities, looking to prevent problems and take a more joined up approach. This will create a Wales that we all want to live in, now and in the future. The Act puts in place seven wellbeing

goals:

- A prosperous Wales.
- A resilient Wales.
- A healthier Wales.
- A more equal Wales.
- A Wales of cohesive communities.
- A Wales of vibrant culture and thriving Welsh Language.
- A globally responsible Wales.

8.2 The Act sets out the sustainable development principle against which all public bodies in Wales should assess their decision-making. The aim of the legislation is to ensure the wellbeing of future generations through maximising the contribution public bodies make towards the wellbeing goals. In using the sustainable development principle, it is incumbent that the Council considers the whole of the population it serves and considers the effect of its actions on future generations. The principle, also known as the five ways of working is assessed below:

- **Long Term** – The Place Shaping Framework is a multi-year investment into a wide range of new facilities that hold the potential to benefit the community as whole as well as contributing to all six of the Council’s wellbeing objectives.
- **Prevention** – The provision of new and in many cases, state of the art facilities and programmes holds the potential to support a multitude of preventative work across the Borough.
- **Integration** – The Wellbeing and Place Shaping Framework is designed in order to integrate directly with the Council’s own Wellbeing Objectives and those agreed by the Public Service Board.
- **Collaboration** – Many of the programmes within the Wellbeing and Place Shaping Framework will require integration across Council Directorates as well as key partners from the public, private and third sectors.
- **Involvement** – It is proposed that the Wellbeing and Place Shaping Framework is underpinned by an ongoing engagement programme entitled ‘Caerphilly – a place for everyone’ that will provide the opportunity for key stakeholders to be directly engaged in the future of the Framework. Each project within the draft Framework will also be underpinned by a consultation and engagement exercise.

9. EQUALITIES IMPLICATIONS

9.1 The Equalities Implications will differ significantly across each project within the draft Wellbeing and Place Shaping Framework. With this in mind, the equalities implications of each of the proposed projects will need to be addressed as part of the project development and delivery mechanisms.

10. FINANCIAL IMPLICATIONS

10.1 The Wellbeing and Place Shaping Framework is an ambitious programme that will require large scale investment. The funding of the projects will involve a combination of approaches with some being funded directly through council resources, some

through external funding alongside a match-funding requirement for the council and some wholly funded externally.

- 10.2 As certain projects are developed into business cases for consideration, the detailed financial implications will need to be considered in accordance with the Council's Constitution and Financial Standing Orders. Wherever possible, one of the key drivers in the development of business cases will be to lever in funding from grants and/or external partners.
- 10.3 At its meeting on the 29th January 2020, Cabinet approved a recommendation to earmark £24.543m from useable reserves for the Place Shaping Framework. In addition to this at its meeting on the 20th February 2020, Council approved further funding for the Place Shaping Framework totalling £4.048m from 2020/21 savings in advance and a surplus balance on the General Fund. This brings the total approved funding to date to £28.591m.
- 10.4 Cabinet was asked to approve a further recommendation that funding of £1.640m held in the 2020/21 Miscellaneous Finance Revenue Contribution to Capital Outlay (RCCO) budget should also be allocated to the Place Shaping Framework, which would increase the total funding available to £30.231m.

11. PERSONNEL IMPLICATIONS

- 11.1 In order to deliver an investment programme of this size and scale, the delivery of the Wellbeing and Place Shaping Framework has been identified as a core priority for Council's Leadership team. To complement this focus, a growth bid has been put forward as part of the 2021/22 budget which will be considered by Council in February 2021 to appoint additional resources.
- 11.2 The growth bid seeks to secure the permanent employment of the previously fixed term transformation resources as well as the creation of a new permanent Head of Transformation and a new permanent Head of Prosperity.
- 11.3 The Framework will also be supplemented by the acquisition of four fixed term project management resources and the creation of a project management office to support the delivery of this wide-ranging transformation programme of investments.
- 11.4 This additional resource, coupled with the existing corporate leadership team focus, will enable the Council's "TeamCaerphilly" wider transformation programme to be further embedded and progressed at the necessary pace. The Wellbeing and Place Shaping Framework is a pivotal element of this overall programme of investment and change. If the bid for additional resources is not supported by Council as part of the 2021/22 budget, the Placeshaping framework will not be able to delivered at the desired pace and scale and the programme will need to be "scaled back" to align with any existing resources that are available..
