

Extract of Statement of Licensing Policy

5.6 Once an application, or an existing licence in the case of a review, is referred to a Sub-Committee it can be expected that the Sub-Committee will scrutinise the application or licence very carefully and arrive at a decision regarding hours. Appropriate hours will be considered to promote the licensing objectives and may even result in the refusal of the application or the revocation of a licence.

5.7 Applicants and existing licensees should be mindful of local areas where there may be a concentration of problematic drinkers or where it is known that groups of people congregated and have caused anti-social behaviour. Applicants should very carefully consider the appropriateness of selling alcohol during early morning or late evening hours.

10.1 Licensed premises, especially those offering late night/early morning entertainment, alcohol and refreshment for large numbers of people, can be a source of crime and disorder problems.

10.2 The Licensing Authority will expect operating schedules (see section 27) to satisfactorily address these issues from the design of the premises through to the day-to-day operation of the business. Details of the factors that will need to be considered as part of the operating schedules are given in the Licensing Policies and matters for consideration when deciding applications, which are attached in the annex to this policy and in the Guidance notes for applicants.

10.3 Applicants are recommended to seek advice from the Licensing Authority's licensing officers and the police, as well as taking into account, as appropriate, local planning and transport policies, tourism, cultural and crime prevention strategies, when preparing their plans and operating schedules.

11.1 Licensed premises have significant potential to impact adversely on persons living and working (including those carrying on business) in the area around the premises, and also further afield through public nuisances that arise from their operation. It is therefore important that in considering the promotion of this licensing objective, Licensing Authorities and Responsible Authorities focus on the effect of the licensable activities at the specific premises on these parties which may be disproportionate and unreasonable.

11.2 The definition of what may be considered as a potential or actual 'public nuisance' is to be interpreted in line with its broad common law meaning established through relevant case law. This is the interpretation which the Licensing Authority will apply when considering such matters. Matters giving rise to 'public nuisance' are mainly accepted to include issues relating to noise, light pollution, odour and litter. It may also arise as a result of the adverse effects of dust, insects, accumulations or any other matter which is determined to have an adverse impact on the living and working environment of other persons living and working in the area of the licenced premises.

11.3 The Licensing Authority recognises that limiting the public nuisance that may be associated with licensed premises and their operation is an important factor for health and well-being. The Licensing Authority recognises the key links to health and well-being from public nuisance in terms of disturbed sleep, stress caused by nuisance and pollution. Disturbed sleep and stress can add to residents' mental and physical health issues, and their wider wellbeing. Lack of sleep can have an impact on the immune system and can contribute to heart disease and diabetes. Lack of sleep can also contribute to anxiety and

depression. Stress can contribute to anxiety and depression, and cardio-vascular diseases. Applicants should consider the potential impact their premise may have on public nuisance particularly from noise and put in place mitigating measures.

11.4 The Licensing Authority expects applicants for premises licences and club premises certificates to have made relevant enquiries and considerations about the local area before submitting their application. The purpose of this is to enable the applicant to consider the most appropriate controls for potential inclusion in the operating schedule with a view to ensuring their activities do not undermine the licensing objective with regard to the prevention of public nuisance. It is important to recognise that the impacts of licensed activity are not contained within a building. Inevitably there is a wider impact as people travel to and from the premises or congregate outside whilst it is in operation. Nuisance is best managed by careful consideration of the suitability of the selected site and any necessary mitigation at an early stage.

11.5 Applicants will be encouraged to demonstrate in their Operating Schedule that suitable and sufficient measures have been identified and will be implemented and maintained to prevent public nuisance. When a suitable site is identified, operating schedules should be prepared on the basis of a risk assessment of the potential sources of nuisance posed by the premises operation to those who may be impacted by their activities. The operating schedule should demonstrate an understanding of the level of risk of nuisance and include positive measures to manage any potential risks.

11.6 The Licensing Authority recommends that licensees apply a high standard of control to minimise the potential for any public nuisance that may arise from their operation of the premises, particularly where:

- they are situated in a residential or noise sensitive area;
- extended opening hours are proposed.

11.7 The Licensing Authority recognises that beyond the immediate area surrounding the licensed premises the control that a licence-holder can exert over its patrons diminishes and individuals who engage in anti-social behaviour are accountable in their own right. However, applicants are encouraged to consider the actions they may take as a responsible licence-holder to mitigate the potential adverse impact of patrons. The operating schedule should again be used to demonstrate an understanding of the potential risks and the positive measures that may be implemented to manage such issues.

11.8 Applicants are encouraged to engage with the Licensing Authority and other relevant Responsible Authorities (such as Environmental Health) at an early stage and prior to the submission of an application, wherever reasonably practicable. These Authorities will be able to provide advice in respect of appropriate control measures that may be put in place, and included in the operating schedule, to mitigate the potential risks of public nuisance occurring.

14.3 Amendments to the Act has inserted the term 'other person' to replace 'interested party' as someone who can make representations, it also removed the vicinity test for residents and the specific term of councillor. This opens up the range of persons who may make representation and includes for example the following:-

- Residents living near the premises
- Persons with an interest in the premises or locality
- Local councillors
- Businesses with an interest in the premises or locality.
- Organisations with an interest in the locality, premises or licensable activities.

22 The Council will have to decide if the representation is relevant and/or reasonable, and in making that assessment will assess the person or organisation making the representation and their relationship to the premises and or vicinity.

14.4 Relevant representations will be taken as those that relate to the fundamental principles of the Licensing Act, any organisation or individual wishing to object to any application will therefore need to state whether they are doing so on the grounds of: • The prevention of crime and disorder; • Public safety; • The prevention of public nuisance; • The protection of children from harm.

19.5 A licence may be issued subject to conditions, which must be complied with at all times whilst the premise is being used for licensable activities during the times specified in the licence. Failure to comply with the terms and conditions of a licence or if licensable activities are carried out without a premises licence, may result in a fine, which is unlimited or a term of imprisonment of up to 6 months, or both.

19.7 It is an expectation that the premises licence holder and designated premises supervisor will be aware of their permitted licensable activity types, permitted hours and conditions of licence. Failure to demonstrate or have a lack of regard could result in a lack of confidence in management by a Responsible Authority.

25.6 The steps for consideration of licensing application, a licensing variation and a club premises certificate are: a) If no representations are made to an application, the Authority must grant it in full. Please see our website for further information www.caerphilly.gov.uk b) When an application is made, and relevant representation are made to the Authority it must hold a hearing of the Licensing Sub-Committee (unless those who have made representations agree in advance that this is unnecessary). 48 c) The Licensing Sub-Committee will then consider the evidence provided by applicants and by those making representations, the legislation and accompanying Guidance, the Statement of Licensing Policy and any other relevant data. d) The Licensing Sub-Committee will determine the application and will take any steps it considers appropriate for the promotion of the licensing objectives. e) Conditions on the licence, additional to those voluntarily offered by the applicant, may be considered. Appropriate conditions will focus on matters which are within the control of individual licensees and which also relate to the premises or places being used for licensable activities and the impact of those activities in the vicinity. If situations arise where the licensing objectives are compromised but cannot be dealt with by the use of appropriate conditions the Licensing Authority will consider whether it is appropriate for a licence to be issued or for the premises to continue in operation.

25.7 Conditions on a licence: • Must be appropriate for the promotion of the licensing objectives; • Must be precise and enforceable; • Must be unambiguous and clear in what they intend to achieve; • Should not duplicate other statutory requirements or other duties or responsibilities placed on the employer by other legislation; • Must be tailored to the individual type, location and characteristics of the premises and events concerned; • Should not be standardised and may be unlawful when it cannot be demonstrated that they are appropriate for the promotion of the licensing objectives in an individual case; • Should not replicate offences set out in the 2003 Act or other legislation; • Should be proportionate, justifiable and capable of being met; • Cannot seek to manage the behaviour of customers once they are beyond the direct management of the licence holder and their staff, but may impact on the behaviour of customers in the immediate vicinity of the premises or as they enter or leave; and • Should be written in a prescriptive format.

26.1 All new and variation applications should incorporate an 'operating schedule' which outlines how the premises will be operated. This should include details of how the applicant will promote the four licensing objectives and reduce any potential negative impact from the operation of their business on the local community, depending on the type of premises,

location and profile of customers. The proposals contained in the operating schedule will form the main body of the conditions to be applied to the licence, together with any applicable mandatory conditions, any conditions agreed with responsible authorities during the application process and any conditions imposed by a licensing sub-committee where representations have been made.

26.2 In completing an operating schedule, applicants are expected to have regard to this statement of licensing policy and to demonstrate suitable knowledge of their local area when describing the steps that they propose to take in order to promote the Licensing Objectives.

27.1 The Licensing Act 2003, as amended, imposes a number of mandatory conditions on licences. The council has the power to impose additional conditions if they consider that they are appropriate for the promotion of the licensing objectives.

27.3 Applicants may offer conditions in the operating schedule as part of their application; the council may remove or reword any of these conditions if they are considered to be unclear, ambiguous or unenforceable, with the agreement of the applicant. This will ensure that all parties fully understand their responsibilities to promote the licensing objectives.

28.1 When an application is made for the grant, variation or review of a premises licence or club premises certificate, representations about the application can be made by responsible authorities or other persons. However the Licensing Authority will usually give greater weight to representations that are made by people who can demonstrate that they would be directly affected by the carrying on of licensable activities at the premises concerned.

28.5 Representations should relate to the impact of licensable activities carried on from premises on the Licensing Objectives.

28.6 For representations in relation to variations to be relevant, they should be confined to the subject matter of the variation.

28.7 Whilst the Licensing Authority expects representations to be evidence based, there is no requirement for a Responsible Authority or other person to produce a recorded history of problems at premises to support their representations, and it is recognised that in fact this would not be possible for new premises.

28.12 The Licensing Authority will accept all reasonable and proportionate representations made by the police unless it has evidence that do so would not be appropriate for the promotion of the Licensing Objectives. However the Licensing Authority will still expect any police representations to be evidence based and able to withstand scrutiny at a hearing.

28.21 Relevant representations about applications can also be made by any other person, regardless of their geographical position in relation to the relevant premises. However the Licensing Authority will usually give greater weight to representations that are made by people who can demonstrate that they would be directly affected by the carrying on of licensable activities at the premises concerned.

36.2 The Licensing Authority intends that enforcement visits will be made to licensed premises as appropriate, to ensure that any conditions imposed as part of the licence are being complied with. These visits may be either proactive planned inspections based on the risk presented by the premises, history of non-compliance etc., or reactive visits as a result of complaints.
