Dear Sirs

I am writing in reply to a request from TOG FARM Ltd. in Rudry for a Premises licence. I completely object to this. Last year there was so much noise and disturbance from there with out a licence. Police and other people were annoyed. I live in the village and could hear all the noise. This will escalate with the licence granted. They were even selling Home Made Slurp on their web site last Christmas. Did they have a licence for this. They denied it but if you find a old web site you will see this is true.

If you grant the licence things will go completely out of control down there
