Subject: RE: Attlee court

Hi Alan

I have spoken to Chris and she is not able to access her laptop at present. She has asked I provide the following statement on her behalf.

'I have been the elected councillor for 33 years representing the Van. I this time I have dealt with many alcohol related complaints, which impact greatly on this community. A previous license was held by one shopkeeper and this proved to increase anti-social behaviour and violent incidents within the locality. We have a community where many individuals have complex needs, alcohol addiction being one. The applicant address is in very close proximity to a childrens play area, where there are already concerns of people consuming alcohol within. I feel this license will negatively effect the community that is already experiencing difficulties'

Cheers
Elaine
