RESOLVED that: -

- (i) (A) the application be deferred to allow the applicants to enter into a Section 106 Obligation to provide the following:-

10% provision of Affordable Housing.

On completion of the Section 106 Obligation that (B) planning permission is granted subject to the conditions contained in the Officers report.

If the obligation is not completed within three months of the resolution to approve, that the Head of Planning and Regeneration be granted delegated powers to refuse the application for failure to comply with Policy CW11 of the Caerphilly County Borough Local Development Plan up to 2021 - Adopted November 2010.

- (ii) The applicant be advised to refer to Public Access on the Council's website to view the comments of the consultees that are brought to the applicant's attention. Informative information is also provided.
- (iii) The applicant be advised that the proposed development lies within a coal mining area which may contain unrecorded coal mining related hazards. If any coal mining feature is encountered during development, this should be reported immediately to the Coal Authority on 0345 762 6848.

Further information is also available on the [Coal Authority Website](#).

- (iv) The applicant be advised that many species of bat depend on buildings for roosting, with each having its own preferred type of roost. Most species roost in crevices such as under ridge tiles, behind roofing felt or in cavity walls and are therefore not often seen in the roof space. Bat roosts are protected even when bats are temporarily absent because, being creatures of habit, they usually return to the same roost site every year. Bats are protected under The Conservation of Habitats and Species Regulations 2010 (as amended), which implements the EC Directive 92/43/EEC in the United Kingdom, and the Wildlife and Countryside Act 1981 (as amended). The applicant be advised that, if bats are discovered, all works should stop immediately and Natural Resources Wales (NRW) should be contacted for advice on any special precautions before continuing.
- (v) The applicant be advised that works should not take place that will disturb nesting birds from March to July inclusive. All British birds (while nesting, building nests and sitting on eggs), their nests and eggs (with certain limited exceptions) are protected by law under Section 1 of the Wildlife and Countryside Act 1981 (as amended) and the Countryside and Rights of Way Act 2000. If birds are nesting on/in or within the vicinity of the proposed development, work should be undertaken outside the breeding season for birds to ensure their protection, i.e. works should only be undertaken between August and February. Further advice on the above can be sought from the local authority ecologists (01495 235253) or Natural Resources Wales (NRW) (029 20 772400).
- (vi) The applicant be advised:
WARNING:

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant land stability and public safety risks. As a general precautionary principle, the Coal Authority considers that the building over or within the influencing distance of a mine entry should be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure that a suitable engineering design which takes into account all the relevant safety and environmental risk factors, including mine gas and mine-water.
