Our link inspectors are continuing to work with Torfaen as part of our follow-up process for an authority causing significant concern. Wrexham local authority is still in a causing concern category, and we will convene a progress conference in July to evaluate progress against the recommendations from the core inspection. We also undertook a focused link work activity in Powys in May to consider aspects of their work on school improvement, the transformation agenda and financial management in schools. We will inspect Gwynedd in the week beginning 26 June and Carmarthenshire in the week beginning 10 July.

Field work being carried out across local authorities during the summer term includes a focus on how well local authorities are supporting the educational needs of asylum seekers and refugees. This work will be included in HMCI's annual report. Our aim is to describe, acknowledge, and evaluate the experiences of these groups as they engage with education and training in Wales.

¹ We will continue to keep our plans under constant review, taking account of the evolving external environment, our audit priorities, the context of our own resourcing and the capacity of audited bodies to engage with us. Follow up work could also lead to other outputs, as may other local audit work where we consider there is merit in a national summary output of some kind. For example, we have been tracking developments with completion of the A465 section 2 road improvement project following our [interim findings report](#) in February 2020.

² We have also published to our website a paper – [Our work programme for 2023-2026](#) – that provides additional detail about our national work (including local thematic reviews). In addition to new work that we will be taking forward in 2023-24, the paper includes details about indicative topics for work to start in 2024-24 or 2025-26.
