### 1. Diagram of Directorate and Service Framework.

### 2. Brief description of Directorate and Service Framework

There are 2 key services, these being Adult Services and Children's Services.

Adult Services provide a wide range of specialist services to members of the community over eighteen years of age, who experience difficulties on a day to day basis due to problems ranging from mental health, physical or sensory disability to drug and alcohol misuse.

Children's Services provide a range of services to children, young people, and their families, in partnership with many other agencies and voluntary organisations. The overall aim is to support children and young people to remain living with their own families wherever this is safe to do so.
